

INTERDISCIPLINARY AND GENERAL STUDIES

The College offers three degree programs designed to provide students with the opportunity to tailor their degree program to their specific educational goals.

INTERDISCIPLINARY STUDIES

The Interdisciplinary Studies Program (IDS) leads to the Bachelor of Arts or the Bachelor of Science degree. The degree requirements are as follows:

1. All general institutional requirements for the B.A. or B.S. degree (e.g. a required minimum of 128 hours, 45 of which must be upper division level).
2. The General Education program (43 hours).
3. A concentration area from two or more disciplines of at least 48 hours of classes, half of which must be upper division level. Each concentration area must include at least 15 hours in courses within the concentration.
4. A student entering the IDS program after the semester in which the student has accumulated 90 credit hours must have a 2.5 average. In order to graduate with an IDS degree, a student must have at least a 2.5 GPA.
5. Under the supervision and with the recommendation of the Academic Affairs Committee, students and their advisors develop their own concentration area from courses already in the catalog. The concentration area consists of a combination of courses having a clear central purpose and aimed at a specific learning objective that is different from objectives of the major fields of study established at Glenville State College. Hours not required in the concentration area or by the college will be electives.
6. All IDS programs must be approved in advance by the Provost and Senior Vice President.
