Employer: Allegheny Surveys, Inc.

Position: CAD Operator

Job Description: Full Time, Permanent, 40 hours per week

Essential Duties and Responsibilities:

- Work with CAD systems creating, modifying, and releasing drawings and word drawings under direct supervision of a supervisor for use by other departments and customers.
- Work closely with all departments to ensure that the drawings convey the correct information.
- Self-check own work for completeness, accuracy, meeting standards, fits and stack-ups.
- May be responsible for some design elements.
- Work from drawings, sketches or scanned images, customer drawings, or Government drawings or specifications.
- Will use the accepted drawing standards as guidelines.

Education and Experience:

- Degree from a recognized CAD training facility and 2 yearsâ€™ experience, or 4 to 6 years experience in CAD systems.

Qualifications: Job Knowledge, Skills and Abilities:

- Must be able to modify existing drawings to minimize the need to create new drawings and create new drawings when necessary in a timely fashion that meet DOD and internal standards.
- Must be able to self-check own work to ensure accuracy and completeness.
- Able to work closely with engineers and other personnel to obtain information or ensure drawing clarity.
- Able to work with minimal supervision, be a self-starter, and be detail-oriented.
- Able to contribute in design reviews and improve job efficiencies.
- Computer literacy in the companyâ€™s software.
- CAD system proficiency.
- Excellent knowledge of drafting standards.

Supervisory Responsibilities:

- None
