Employer: Civil & Environmental Consultants, Inc.

Position: Survey Technician III

Job Description: Full Time,

As a CEC Survey Technician III, you will perform survey work relating to topography, boundary, and construction staking. You will be leading two or three man survey crews under the direction of Registered Professional Surveyors. You will perform routine professional land survey work using accepted surveying practices and equipment. You'll operate various modern instruments, clear brush, drive stakes, hold chains or rods, take detailed notes, and make sketches.

You will be responsible for utilizing various data collection programs to gather, retrieve and interpret important data, and performing minor computations as required.

The position will entail travel within West Virginia, Pennsylvania, and Ohio areas. You will perform survey work for commercial, institutional, solid waste, and energy clients.

Qualifications: Required Qualifications

- 5-8 years' survey crew chief experience;
- Skilled in the use of GPS devices, survey and drafting technologies, data collectors and/or Total Station;
- Work requires independent judgment and initiative;
- Knowledge of the principles, techniques and practices of land surveying;
- Knowledge of the principles, practices and instruments used in computer aided drafting;
- Knowledge of civil engineering principles and practices and construction specifications, plans and regulations related to construction;
- Ability to operate motorized equipment;
- Ability to work long hours outdoors under various field conditions and exposure to traffic, heat, cold, and other adverse conditions;
- Valid Driver's License.

Preferred Qualifications

- Experience with Trimble & Topcon GPS and Total Stations, Trimble, Recon/Nomad Data collectors and TDS Surveypro, Trimble Access software, experience with VRS;
