

# HAZMAT

In case of a spill or leak of hazardous materials

Immediately evacuate

If the agent is migratory, clear and secure the entire building.

If the agent is stationary, prohibit contact.

If the agent is radiant, move occupants out of range and prohibit proximity.

Call the Public Safety at **x6450 or 304-904-2041** and give the following information:

Building Name or location

Room Number

Floor Level

Other pertinent information about the hazardous emergency or any injuries resulting from the spill or leak.

Go to your designated Refuge Area as directed by a **floor supervisor**, Public Safety Officer, or fire/police official.

If Public Safety cannot be contacted, call **911**
