

## INTERDISCIPLINARY AND GENERAL STUDIES

The College offers four degree programs designed to provide students with the opportunity to tailor their degree program to their specific educational goals. They are an associate degree in general studies, the Regents degree, and a bachelor's degree in Interdisciplinary Studies and a bachelor's degree in Applied Science.

### INTERDISCIPLINARY STUDIES

The Interdisciplinary Studies Program (IDS) leads to a Bachelor of Arts or the Bachelor of Science degree. The degree requirements are as follows:

1. All general institutional requirements for the B.A. or B.S. degree (e.g. a required minimum of 120 hours, 39 of which must be upper division level).
2. The General Education program (39 hours).
3. A concentration area from two or more disciplines of at least 48 hours of classes, half of which must be upper division level. Each concentration area must include at least 15 hours in courses within the concentration.
4. Students and their advisors develop their own concentration area from courses already in the catalog. The concentration area consists of a combination of courses having a clear central purpose and aimed at a specific learning objective that is different from objectives of the major fields of study established at Glenville State College. Hours not required in the concentration area or by the college will be electives.
5. A student entering the IDS program after the semester in which the student has accumulated 90 credit hours must have a 2.5 average. In order to graduate with an IDS degree, a student must have at least a 2.5 GPA.
6. All IDS programs must be approved in advance by the appropriate department chairpersons and the Vice President for Academic Affairs.

Among possible Interdisciplinary Studies concentrations are

|                         |                        |
|-------------------------|------------------------|
| Broadcast Media         | Educational Psychology |
| Business Communications | Environmental Studies  |
| Business Spanish        | Fine Arts              |
| Child Development       | Recreation and Leisure |
| Computational Science   |                        |
