

MINORS

Minors are not stand-alone and must be combined with a baccalaureate degree program. However, minors cannot share more than 6 credits with courses within a major and must have 12 unique credits and cannot be combined with degrees in the same content area. Minors cannot be combined with teaching specializations or associate degree programs. Minors may be taken as part of a baccalaureate degree program in place of general electives or in addition to the requirements of a baccalaureate degree program. In some instances, a minor will not be covered by financial aid. Students should consult with the Financial Aid Office when declaring a minor. A grade of “C” or higher must be earned in all courses required in the minor. Students are responsible for meeting any prerequisites required for courses within a minor. A student intending to graduate with a minor must have declared the minor prior to submitting their application for graduation. Minors will not be awarded retroactively or by themselves.
