GSC Department of Education

## ABOUT THE DEPARTMENT

The Department of Education prepares teachers who will be equipped to instruct students in the modern American classroom. GSC graduates train to become skilled and reflective teachers with a thorough understanding of subject content, along with well-developed capacities in instruction, classroom management, evaluation, and educational applications of technology. Students also learn techniques that help ensure responsive action, improvements to the learning/teaching process, and continued professional growth.

## HOME GROWN PROGRAM AT GLENVILLE STATE

Glenville State College has created a scholarship program to help qualified West Virginia students who want to return to teach in their home counties. The Home Grown program is for newly enrolled, first year students at GSC. In addition to a scholarship, students in the program receive Praxis preparation support, mentoring, and more. Ask a counselor or contact the Department of Education to learn more.
