Modern Poetry Conclave Slated As Spring Event

Glenville State College Literary Society announces the Second Annual Conclave on Modern Poetry, to be held on campus, Saturday, April 4, beginning at 10 a.m. in Louis Bennett Lounge.

Poet's Corner

A Pair of Angel Wings

Judy Criss

A stormy day when wind and seas can smother all plights of one's fruitless life,

When shadowing clouds touch the earth enshrouding one's soul,

When one's ears become deaf to all but the crying of the shattering tide,

Beneath my foot from upon wasted beach I wandered,

I lifted gently from watery clutches, a slight shell . . . fragile, white, angel wings by name.

Still perfect and unbroken, lone survivor from many, it had endured.

A stormy day when wind and seas have broken the dreams of desperate souls,

When shadowing clouds were unlifted by the weak,

On a bleak beach of nowhere a fragile, perfect shell lies in the footprints of mankind.

If Not, Why Not?

THE STUDENT GOVERNMENT Association, when operating with the best interests of the student body in mind, is a useful and highly desirable organization.

AN EFFICIENT Student Council plans various activities, offers an opportunity for students to voice complaints, plans Freshman Week and Homecoming events, and publicizes coming events of importance to the student body.

A STUDENT COUNCIL which does these things is a necessary part of campus life. The Student Council exists for students, and if the organization is weak, the students are deprived of necessary leadership and their voice in GSC policy.

STUDENTS MUST be informed and must demand maximum effort on the part of the officers and members of the Council. If the best possible leadership is not provided, then both students and Council members need to re-examine GSC student government.

Letters to the Editor

DEAR EDITOR:

As a student at Glenville State College, I have watched the parking situation on our campus go from bad to extremely bad. On Tuesday night, March 3, the final point of confusion was reached.

The Wahama High School Band members, who presented a concert at the college that night, and were scheduled to return home (a one-hundred mile drive), after the concert, found that several of the cars in which the students were riding, were blocked in their parking spaces by persons unknown who parked their automobiles on the sidewalk at the entrance of the parking lot, locked the doors of their cars, and left.

Most, if not all of these cars, did not bear G.S.C. student registration stickers. Combined with the inclement weather, the delay of forty-five minutes to an hour, would have made the cars and their passengers extremely late in arriving at the destination.

I do not think that this situation publicizes the college in a favorable sense. If students receive tickets from the college for illegal parking, why cannot other people who park on campus be subject at least to the rule of common courtesy when they are here.

Perhaps a solution to this problem would be for the college to hire special employees to direct traffic on congested dates. I, as a full time student at G.S.C., would like to see something done about this treatment of guests to the college.

Sincerely,
Michael Gene Wilson

DEAR EDITOR:

Tuesday night, March 3, the Wahama High School Band presented a concert in the College auditorium. After the concert, several of the students and their chaperones found that their cars were blocked into their parking spaces by other cars which were parked in such a manner as to block completely the entrance of the lot. Three of the cars were delayed as much as forty-five minutes. This was a considerable delay considering that these people had a drive of over ninety miles in the fog before they reached home.

Several of these students were of junior high school age and all of them had to attend classes the next day. Naturally I heard several unfavorable comments about the College and its parking policy during games and activities. I pointed out that most, if not all, of the offending cars did not bear student stickers and were probably not associated with the college, but the fact still remains that guests of the College had been treated in a very inconsideable manner.

I have noticed that parking does seem to be a problem during games and other such activities. Is anything being done or can anything be done to prevent outsiders from abusing the right of College students and guests in the College lots? I feel that incidents such as this not only place the College, but also the students in an unfavorable light in the eyes of many people. What can be done to help eliminate these unpleasant incidents?

Yours truly,
Kenneth H. Frederick

Pioneers Lose To Wheeling In Tournament

The Glenville State College Pioneers ran into hot shooting Wheeling College team and lost in the opening round of the WVIAC tournament 95-82 on February 19, at the Civic Center.

The Wheeling quintet set a tournament record in shooting a phenomenal 65.5% from the floor. They made good 36 of 55 field goal attempts.

Glenville, who had beaten the Cardinals twice during the regular season, just could not get started against the hot Wheeling team. The Cardinals jumped to a 6-0 lead as the game started and continued to pour it on.

At one point in the first half, Wheeling made 11 goals without missing. This shooting carried Wheeling to a 26-15 lead over the Pioneers at the end of ten minutes of play.

The Cardinals did not ease up as they went on to lead 49-32 at the half.

Glenville came back in the second half and scored 16 points in the first ten minutes of action but this did not cut the margin any as the Cardinals scored 20 points.

The Pioneers tried desperately to close the gap in the late stages of the game, but the closest they could come was 90-81 with 55 seconds left.

Chuck Eddy and Clyde Brewer led the Glenville scoring with 20 points each. Bob Minnieweather and Clark Dilley each contributed 15 points.

Dilley also pulled down 9 rebounds.

Research Project Contest Is April 30

The deadline for entries to be presented is April 30. The project may be on any topic in the natural sciences including chemistry, mathematics, physics, astronomy, etc. An award will be made to the winner by Chi Beta Phi Science Fraternity.

Baseball Opens With D and E There April 7

Baseball Coach William Douglas greeted 28 candidates for the baseball team at the opening practice, March 1.

The biggest problem at present facing Coach Douglas is finding a catcher. Even though none of the other positions are sewed up, he does have some material back from last year.

In the outfield these returning are Clyde Brewer, Creed Pletcher, Joe Duncan, Orville Harper, Tom Gunnoe and Noel Blankenship. Gunnoe was a second team All-Conference selection last year. Blankenship was a regular on the team three years ago and is now back in school.

Returning infielders are Gary Potts, Pat Wilfong, Paul Taylor and Ollie Pottmeyer.

Pitching also poses a problem as there are only three returning pitchers, Joe Duncan, Larry Kitzmiller and George Jensik. Also trying out for pitcher is Ed Wymer, a transfer student from Shenandoah College, Va.

The opening game of the 1964 season is April 7 at Davis and Elkins College; the first home game will be a double header with W.Va. Tech, April 11.

Students Vote 'Yes'

On Feb. 27, the Student Council sponsored an election to see whether the students at GSC favored including the cost of a yearbook in the student activity fee. This extra cost would be \$2.50 per semester.

The election drew 680 voters, and of this number 656 cast their ballots in favor of the yearbook fee.

LITERARY ISSUE

Students are encouraged to submit poetry, short stories, essays and one-act plays for the 1964 literary issue. There is no contest, no prizes, merely an attempt to encourage creative writing by GSC students.

Literary material may be mailed to the MERCURY editor or brought to the MERCURY office by April 30.

Robert F. Kidd Library Will Be Expanded Soon

One of the most prominent and important buildings on campus, the Robert F. Kidd Library, is going to have its face lifted soon. Expansion on the structure will begin as soon as architectural plans, being drawn by Greiffe & Hoblitzell of Charleston, are completed and approved.

The present structure will not be torn down, but will merely be increased in size. Still unresolved is the decision of whether the new addition will be added to the front or the back of the present library.

Tentative plans for the library will provide for a 121,000 book capacity. GSC library at present houses 44,000 volumes, with new books pouring in all the time, even though it is only equipped to handle 30,000 volumes.

According to standards set by the American Library Association, a four-year college should have a basic collection of 50,000 volumes for an enrollment of 600 students. Each additional 100 students means that 500 more books should be included in the collection. For the GSC student population at present, the library should now have 65,000 volumes.

Plans, which are still in the experimental stage, for expansion will include a four-story building equipped with all the conveniences of a large, modern-day library. An elevator, a book lift, air conditioning, and plenty of individual study tables will be some of the possible facilities.

Two class rooms, seminar rooms for discussion groups and small classes, and a music room with acoustic ceiling and walls equipped with stereo are some of the probable features of the new edition.

An audio-visual materials room, a language laboratory, and a student teaching library and laboratory, to aid those doing student teaching and those responsible for counseling students, may also be included in the plans.

A separate area will be provided for juvenile books as well as for paperbacks. The periodical collection will be allotted a larger area, including a separate room in which students may go to read the latest editions of newspapers and magazines.

Expansion goal is to get as much floor space as possible for the money being spent. Construction on the library is to begin as soon as possible according to whenever the architectural plans are completed and approved.

Theta Xi Plans Campus Conclave

Kappa Eta Chapter of Theta Xi Fraternity plans a Sports and Visitation Conclave, including all the Theta Xi Chapters in West Virginia, to be held this spring here at Glenville State College.

Theta Xi's "Folk Concert" on Feb. 27 was well received. The "Vandalia Singers" were featured in the concert.

The fraternity went skiing at Blackwater Falls this past weekend.

He will talk with students about the relations of the church to the situation in Africa today and will discuss the opportunities for service with the church in critical areas and situations both in the United States and overseas.

Mr. Schooler's visit on campus will be informal; he plans to live at Louis Bennett Hall and eat in the cafeteria. Tomorrow he will speak to the following classes: 9:05 Dr. Watson's History Class, 304A; and 2:30 Mr. Murin's Class on Social Problems, 105S.

At 5:30 he will speak at the Wesley Foundation Dinner meeting.

A native of Durham, N.C., Mr. Schooler holds a Bachelor of Arts Degree in French and English from Wittenberg University and has done graduate work at North Carolina College.

Wesley Group Plans Sunrise

Rev. Robert Fuqua, minister of the Trinity Methodist Church and director of the Wesley Foundation, will present the program "Man, Forgiveness, Life Everlasting," March 15, which is the final program in a series on Basic Christian Beliefs.

March 8, Dr. Shissler, a professor of Social Studies at West Virginia Wesleyan, presented the second program in the series entitled "The Holy Spirit and the Church."

Plans are being made for the Campus Sunrise Communion Service in the amphitheater at 6:30 March 26. Last year was the first year for the Sunrise Service, and it was well received by the students.

Why Not Fly?

Looking for a pleasant three months in the sun? Lots of time to swim... play golf... hit the high spots? Like to have nothing much to do all day? Then DON'T apply for the Air Force Officer Training School. But if you're not afraid of hard work... and if you want to accomplish something worthwhile... perhaps OTS is just your meat.

The hours will be long and the courses you'll take are difficult. But when you come out... you'll be a commissioned officer in the Air Force—a leader on the aerospace team. Both men and women are eligible. To apply you must be a college graduate... or going to graduate within the next two hundred and ten days. And you must have a skill or aptitude the Air Force can use.

Why not get all the facts from your Air Force Representative, SSGT. Don Saunders, or from any member of the Officer Selection Team when they visit Glenville State College April 2-3.
