

The Glenville State University Natural Resource Management Pathway is designed for high school students across the state of West Virginia who are eager to get a jump start on a college degree within the Natural Resource Management field at Glenville State University.

- Forestry
- Land Surveying
- Energy and Land Management
- Environmental Science
- Wildlife Management
- Criminal Justice (DNR)

Students who choose to participate in the GSU Natural Resource Management Pathway will earn a total of 24 college credits during the duration of their enrollment in the pathway. Enrollment in the Natural Resource Management Pathway will help students become better prepared for a successful transition into their chosen Natural Resource Management degree path.
