CYBERSECURITY

MASTERS IIN BUSINESS ADMINISTRATION

GLENVILLE STATE UNIVERSITY

MASTER STRATEGIC SECURITY SOLUTIONS

Program Overview

The Cybersecurity specialization at GSU is an extension of the MBA program that combines strategic leadership, governance expertise, and ethical hacking techniques, preparing graduates to proactively protect digital infrastructure and respond effectively to cybersecurity challenges across various industries.

Flexible Online Learning

This program is ideal for anyone who is eager to advance, or begin, their careers within cybersecurity.
Built to ensure that its online classes are in place to leverage the strengths of online learning, students are able to enjoy the flexibility of remote coursework and engage with students at other leading institutions, strengthening their professional networks for the future.

Accessible to All

Designed for inclusivity, the program provides a strong foundation in cybersecurity through low-code tools, empowering students to manage and oversee projects without requiring advanced technical expertise.

APPLY NOW!

Designed for You

This program equips students with the strategic and leadership skills necessary to bridge the gap between technical teams and business stakeholders, ensuring a robust cybersecurity infrastructure. With a focus on guiding technical teams, making informed decisions, and managing cybersecurity initiatives, graduates will be prepared to lead organizations in the protection of critical assets.

Rapidly Growing Demand

Cybersecurity roles are experiencing explosive growth, with demand expanding 32% faster than in other fields. As businesses increasingly prioritize security in today's digital landscape, graduates of cybersecurity programs will be at the forefront of this shift.

Potential Cybersecurity Career options:

- Cybersecurity Manager
- Security Operations Center (SOC) Director
- Chief Information Security Officer (CISO)
- Cybersecurity Consultant
- Risk Management Analyst
- IT Security Director
- Cybersecurity Program Manager
- Security Architect

Non-Cybersecurity Related Careers:

- Business Strategy Consultant
- Project Manager
- Data Protection Officer
- IT Operations Manager
