This policy details the responsibilities of Glenville State University regarding the awarding of credit for prior college-level learning gained outside the higher education academic environment.
- 2.2. Glenville State University recognizes that some students, particularly adults and non-traditional students, may have acquired prior college-level learning through the development of skills or knowledge that closely parallel those outcomes taught in college-level courses. It is important that Glenville State University has the opportunity to evaluate learning that has taken place outside the higher education academic environment and to award academic credit when appropriate.
- 2.3. The purpose of this rule is to outline the terms and conditions under which Glenville State University awards *and/or* transfers credits toward a degree or certificate based upon CPL and to provide consistent and accessible methods for students to earn these credits.
