## GENERAL INFORMATION.

---

The State Normal School at Glenville was established by an Act of the Legislature, passed February 19, 1872, and was opened in pursuance thereof on the 14th day of January, 1873

### NEW BUILDINGS.

By an act of the Legislature, passed February 27, 1885, there was an appropriation of five thousand dollars made for a new Normal School building. Since the erection of this building, the school has been steadily growing, so that an additional building became necessary. By an act of the Legislature, passed in March of the present year, twenty thousand dollars was appropriated for the erection and furnishing of a new building. It is expected that the building will be commenced during the present school year and rapidly pushed to completion. In addition to this many improvements will be made on the grounds and present school building, the whole tending to increase the facilities for work as well as to make the surroundings more pleasant. It is believed that the completion of the new building and the contemplated improvements will give us one of the best school buildings in central West Virginia.

The site of the school is an excellent one in all respects. Although within the corporate limits of Glenville, it is on an eminence outside of the town, where it readily receives the free air and bright sunshine of our notably healthful climate. Fruit trees and other trees adorn the grounds.

Since the school began it has been steadily reaching abroad for its pupils, gathering them from twelve or fourteen counties out of the fifty-four in the State, and has returned graduates to many counties.

The industry and morality of the large majority of pupils cause them to be held in high esteem by the people of Glenville. The social privileges tendered them by the people, the healthful and quiet location, the moral and religious advantages of the place, the *very low rates* of board, the *thoroughness* of the school, affords *unsurpassed inducements* to the people of *Central West Virginia*.

## LOCATION.

Glenville is situated upon the right bank of the Little Kanawha, in the midst of a country containing rare elements of beauty and health. The community is intelligent and moral, and there are few inducements to tempt the student from his studies, or to lead him from the path of rectitude and morality.

## ACCESS

By private conveyance from any direction is readily obtainable, the place being a sort of turnpike centre. A regular hack line connects at Weston with the Clarksburg, Weston and Glenville Railroad. Connections are frequently made at Cairo, Ellensboro and West Union, too, though by private conveyance.

## OBJECT.

The special purpose of the school is to educate and train persons for the profession of teaching, in order to the better working of the free schools of the State. The course of instruction is such as will fit persons, not only for the common schools, but also for graded and high school teachers, and for county superintendents. Any studies desired may be pursued, in addition to those in Normal curriculum, and every pupil is always furnished with all the studies he can successfully pursue.

Application for appointment may be made to the Principal of the Normal School as well as County Superintendents.

## LITERARY SOCIETIES.

There are two Literary Societies connected with the school, the "Cosmian" and the "Independent." These societies are organized and conducted by the pupils, under the oversight of the Faculty, and afford excellent exercise and extensive practice in Literary work.

## GOVERNMENT.

- 1st. It is wrong not to do right.
- 2d. The culture of a high sense of personal honor.
- 3d. The highest style of government is self-government.
- 4th. Go to school where your time and money will bring you the greatest return.
- 5th. Be ready the first day of the term.
- 6th. Expect to study hard.

7th. Remember that your success will be in direct ratio to your efforts.

8th. Study to know.

9th. The more you do the more you will be able to do.

10th. Improve the odd moments.

11th. Set a good example for others.

12th. Say "no" loud and strong when asked to do wrong.

13th. An hour lost is gone forever.

14th. No one accomplishes more than he intends.

15th. You will be benefitted only by your own efforts.

This school is rapidly becoming widely patronized throughout the interior of the State.

There are students in attendance at present from the counties of Lewis, Ritchie, Braxton, Gilmer, Harrison, Upshur, Roane, Doddridge, Wirt, Webster and Randolph.

This school furnishes the most active and competent teachers employed in this section of the State, and it is very gratifying to its friends to see how firmly it has ingratiated itself into popular favor.

#### EXPENSES.

Boarding—Boarding with room, fuel and light can be had from \$2.25 to \$2.50 per week. Boarding is lower priced here than at any other school of high grade in the State.

#### MORAL AND RELIGIOUS.

The school is strictly non-sectarian though religious principles are recognized as essential elements in the formation of character. The school is opened each day with chapel exercises consisting of music, scripture lessons and prayer, and all students are required to be present unless excused by request of their parents or for other good reasons. There are four different denominational churches in the town and students are expected and encouraged to attend religious services. Parents need have no fear whatever to send their sons and daughters to this school. No immoral or dissipated persons will be allowed to remain in connection with the Institution.

## CLASSIFICATION

Depends upon *real attainments* alone. Students upon entering will be assigned to such classes as they desire, if they possess suitable attainments. Advancement to higher classes will depend upon scholarship, and *not upon the time* the student has been in connection with the school. No student can complete any study except upon a satisfactory examination. Usually every class has six written examinations during the scholastic year. Seventy-five per cent. is necessary to be made by the pupil, if he retains his place, and receives his certificate of Distinction or Proficiency, as the case may be.

## Libraries.

There is a library, for the use of students, of the most necessary and valuable books.

It now consists of 600 volumes of the best English and American classics. Courses of reading are arranged for students pursuing the studies of Geography, History and Literature, all of which can be found in the school library, as well as many other subjects.

The Cosmian Literary Society now has the nucleus of a very good library for the use of its members.

In addition to these, three copies of Webster's New International Dictionary, one of Webster's Unabridged Dictionary, and one of Worcester's, and other books of reference. The library receives yearly additions, as the funds are appropriated for the purpose.

## Apparatus.

The school is well supplied with apparatus, recently purchased, for illustrating different subjects in Natural Philosophy, such as Gravity, Mechanical Powers, Pneumatics, Light, Electricity, &c., &c. Other pieces are added as the work demands and funds permit. To aid in the study of Physiology the best Manikins published and other charts, have been secured. A fine German Compound Microscope for Botany and Physiology make the studies much more interesting. For Mathematics and Drawing, blocks and Charts; Maps and Globes for History and Geography, all of which are for the use of students under the direction of the teachers.

Liberal appropriations by the last Legislature will enable us to add much to the present apparatus.

## MUSIC.

## MISS LESTELLE SMITH.

During the past year an excellent Knabe piano was purchased for the school, and a music department added to the school which greatly increases its facilities for an extended education in the fine arts. Music has now become so great a specialty that, we believe with Goethe, who said, "We are better for every good song we hear." The superior advantages which the Glenville Normal School now offers, renders it unnecessary that students go elsewhere to pursue this branch of study.

Miss Lestelle Smith, who presides over this department, is a teacher of rare ability, having had an extended practice in teaching music. She is a former student of Conservatory of Music in Cincinnati.

She is prepared to teach technique and modern piano forte playing as taught in the best schools of music. She is a teacher also of vocal culture, and is conversant with the "Baur" system of training the voice.

This department has been one of the most successful in the school the past year.

## Stenographic and Business Department.

---

J. ELTON HALL, PRINCIPAL.

This is a new feature in the school, having been introduced after the beginning of the Spring Term, but is meeting with very marked success.

It is not the purpose in the short space given to noticing this new addition to the school to give any arguments in favor of such a department, or to state the benefits to be obtained by attending a school with the advantages afforded by the same, for in this age of progressive business activity the need of a practical business education is too well known to need repeating, or even to be questioned.

This department is in charge of a teacher who has taken a thorough course in two leading schools of business training; one of which was given exclusively to Shorthand and Typewriting and kindred subjects, the other to Book-Keeping and all the branches taught in a first-class business school. Added to this he has also had practical experience as stenographer and correspondent in the offices of three leading branches of business: Commission Merchant, Manufacturer and Railroad Manager. Considering the above facts this school affords a

### RARE OPPORTUNITY

to any young lady or gentleman to get a good, thorough business training for a small investment, either in connection with the regular Normal Course, or alone. Each pupil will be given individual instruction, so that he can progress as fast or as slowly as he may please without interfering with any other pupil.

### BUSINESS COURSE.

In this course will be taught Book-Keeping, Science of Accounts, including Rapid Additions, Commercial Calculations and Commer-

cial Arithmetic; Commercial Law, Business Paper, Business Correspondence, Practical Grammar, Business Orthography, Business Practice and the Laws of Trade. Some schools would have you believe that you must get your education with them if you would succeed. There is not so much in *where* you get your education as that you get it *thoroughly*. The name of the school you attend does not amount to so much as the answer to this question, "Can you do the work?"

That is what an employer wants to know and he don't care where you acquire your knowledge.

#### SHORTHAND.

The student of Shorthand will be given as thorough training as he would secure in one of the leading business schools of the country. A leading system of Phonography is taught. It is the most simple, uniform and legible, and has been put to the severest practical tests by law stenographers and reporters in every city of the Union. It is taught in the five leading schools of New York City and three of the principal ones of Chicago.

#### TYPEWRITING.

This course may be taken in connection with Shorthand, or separately. Persons taking up Typewriting will receive instruction on the mechanical construction and care of the machine used, and will be given a thorough training in correct fingering. The popular "All Finger Method" of manipulation is used. Students, after they have thoroughly mastered the fingering, will receive a training in all kinds of Business Letters and Business Correspondence, Business Forms and Tables, Tabulating, including Price Lists and Billing; Manifolding, Copying, Endorsing, Filing; and how to prepare all kinds of Legal Papers; Contracts, Forms of Will, Affidavit, Bond, Bill or Petition, Supplemental Petition, Answer, and Brief; also all kinds of Specifications.

The machines used are the Caligraph and Smith Premier, and as the number of pupils increase other makes of machines will be added. For terms and full particulars, address the principal of this department.

#### TERM REPORTS.

containing the "number of days present," "number of days absent," "number of times tardy," and "number of demerits," during the month, and also the average grade in each branch studied, grade of neatness in manuscript, and work on the black-board, &c., and the result of examination in each branch, are made up from the records of the school and transmitted by means of the pupil to the parent or guardian of every pupil in attendance. These are no irregular compounded statements, but they are *accurate copies* of the school

record, and state the character and standing of the pupil as it is preserved in the archives of the school.

#### DIPLOMAS.

The Board of Regents will confer upon those who complete the Senior Year and pass an examination upon the studies of the same equal to seventy-five per cent. of the questions asked, a Normal Diploma, with the title of Normal Graduate.

Diplomas are now equal to number one certificate anywhere in the State when the holder has taught three years under a number one county certificate. The Legislature has enacted that there shall be a State Board of Examiners, which may issue two classes of certificates. First-class for twelve years, second-class for six years. "The second-class certificates shall be issued upon application, without examination, to the graduates of the State Normal School and its branches, and of the State University, when such graduates shall have presented to the board satisfactory evidence that they have taught successfully three years in the State under a number one county certificate, two of which said three years shall immediately precede the application for such certificate." "Such certificate shall be equivalent to a number one county certificate granted by a county board of examiners, and shall be valid in any school district in the State."
