A. educational work at Parkersburg, recently completed work on the Ph. D. degree at Johns Hopkins University. Mr. Harper replaces Dr. A. E. NEW DORMITORY WORK SLOWS UP

Plan of Building Provides For Five Units of Three Apartments Each

A change in specifications for plumbing which requires the substitution of stream-lined copper tubing for wrought iron pipe has resulted in postponing the date for completing the new dormitory, says C. W. Loar, superintendent of construction.

The sewer lines are completed; the plumbing is seventy-five per cent complete, and the plastering and exterior painting is in progress. The conduit is all in place ready to receive the wires which will carry electric current to all parts of the building.

The heating plant, which is the low pressure steam type, is seventy-five per cent installed.

The sidewalks and lawn grades are now under construction and will be finished at an early date.

An exclusive feature of construction in the new dormitory is the apartment plan which provides for five units, A, B, C, D, and E, each of which is divided into three apartments consisting of four, five, and seven rooms. Each unit is served by a private stairway to the court.

Isadore Nachman, '36, son of Mr. and Mrs. Max Nachman of Court Street, has enrolled in the University of Missouri, School of Journalism, where he expects to complete the B. J. degree. Nachman was a member of the Mercury staff the past two years.

Says "Fear of the Lord Is the Beginning of Wisdom"; Urges Students to Work

"The fear of the Lord is the beginning of wisdom," declared the Rev. J. C. Musser, pastor of the Glenville Baptist Church, in a College assembly address Wednesday. The Rev. Mr. Musser was introduced by President E. G. Rohrbough.

"If any thing we do is not wholesome or helpful, it should not be done," the Rev. Musser said, and added: "Knowledge will direct what will be done; wisdom will direct how it will be done best."

"Some of you students are away from home for the first time and for a worthy purpose. Your fathers and your mothers are expecting the best of you. You will find a great satisfaction in living up to those expectations."

Group singing was led by Miss Bertha E. Olsen, music instructor in the College. A new pep song, the words of which were written by Denzel Garrett, was introduced.

HI, FRESHMEN!

Freshmen, the Mercury wishes you a most successful college career. The genial friendship, typical of our students and faculty here, will be an indispensable aid to your progressive aims. Reciprocity of this policy augments the strength of the student body in that fraternity to which we all belong. The commonly called ups and downs are to be found awaiting your adventure in college, such as are prevalent in all other walks of life. It is the policy of the administration of this college to help you up if you are down and to help you down if you are up too far, that is, in the wrong direction.

You are to be commended for having decided to spend a few years of your life in college, in the face of the discouraging protests of those who did not go to college and in the face of the seemingly inevitable economic barriers which a graduating class must face every year.

The fruit you gather from your efforts here depends solely upon the manner in which you fertilize and cultivate the potentialities which you possess. Using the words of a former congressman: "Every successful student, as well as every victorious citizen, must build life's pyramid on four great corners—stones of virtue—a genuine love of the genuine, a worthy ambition, contagious enthusiasm, and 100 per cent loyalty to God and righteousness." This is your hour, freshmen. Make the best of it.—Denzel Garrett, '37.

TIME TO CHECK UP

A good business man takes an inventory of his assets and liabilities at the beginning of a new year. It seems reasonable to assume, therefore, that a student, good, bad, or indifferent would do well to imitate the individual who practices sound business procedure.

How will you take this inventory? Just ask yourself this question: What qualities do I possess which may aid me professionally, socially, in business or in any other vocation?

Under the heading of assets, any list should include the following: A liking for people, tolerance, humility, loyalty, honesty, friendliness, truthfulness, and the ability to speak and act with some semblance of having been trained and disciplined.

The following may be considered liabilities and should be avoided: Snobbishness, aloofness, assumed superiority of manner, careless habits of speech, manner, and dress.

The above lists are by no means exhaustive. Perhaps your listing would be entirely different from this one, but you can't escape the fact that the qualities which contribute to the sum of your personality will determine in large measure your success or failure in your field of activity.

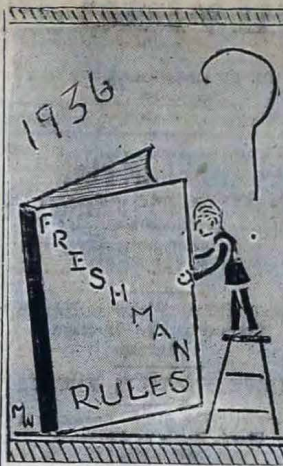

In short, the qualities of a Lincoln inspire respect, love, and confidence; the qualities of a Mussolini inspire respect, hate and suspicion.—Otis Rexroad, '36.

SEEING THE HOME GAMES

The thud of a cleated shoe sinking into a pigskin always arouses the spirit of the onlookers to a spurt of contagious enthusiasm. It is a true sign that fall has come, that coonskin overcoats and sealskin wraps are to be taken from the old trunk, and that we are to don the freshman cap and join the parade on its way to Rohrbough Stadium. While every effort is being made to 'block that kick,' the shouts from the students in the grandstand stimulate the boys, as does a warm cup of coffee for a weary traveler. The effect of the spirit of the student body should not be overlooked when we are desirous of scooping up athletic victories for our school, for it has been said that "where there is union there also is strength."

The active support of the students goes a long way toward having a successful athletic season. It is to be hoped that we will not overlook this fact when the gridgers take off with a flying start. The price of admission to the games has been included in the student activities fee, so to deny yourselves of the privilege of seeing every home game this year can only be termed negligence, the very kind that will thwart a growing College spirit.—Denzel Garrett, '37.

Way of the World

By WOLFE and WEST

IN THE DAY'S NEWS—

There are now more than 2,000,000 Boy Scouts in the world. The air breathed during a day weighs more than the food consumed during the same period.

Samuel Clemens was not the original Mark Twain. Capt. Isaiah Sellers first used the name, which Clemens adopted after Sellers died.

The U. S. imports more than 7,000 quill pens from England every year.

—AND SOME HUMOR—

Freshman—"Where's the Men's Room?"

Sophomore—"What's it to you?"

Porterfield—"Don't bother me. I'm writing to my girl."

Davies—"But why are you writing so slowly?"

Porterfield—"She can't read very fast."

Prof. Woofter—"You missed class yesterday, didn't you?"

Fritzi—"Not in the least, sir, not in the least."

Mercury Reporter—"And to what do you attribute your success?"

Mr. Freed—"My wife."

Reporter—"Oh, her loyal help and—"

Mr. Freed—"No, no. I just wanted to find out if there was any income she couldn't live beyond."

A THOUGHT FOR TODAY—

The clock of life is wound but once. No man has the power to tell when the hands will stop, at late or early hour. Now is the only time you own, live, love and work with a will; place no faith in tomorrow, for the clock may then be still.

Today's the Day! The present hour is the only one a man controls. In it he finds the sole opportunity for service, for achievement, for happiness. He may plan and provide for the future, but he lives only in the present. Tomorrow, next week, next month, next year—if they come—turn out to be only "to-days." It is what a man does now that makes or breaks him.

—FRESHMEN SHOULD KNOW

You can't save time by keeping late hours.

Many a freshman's mind is weak because the only exercise he gives it is in thinking of himself—ask Dean White.

What is the capital of the "state" of matrimony?"

Watch this space, watch this space. Meet the jungle face to face.

AND SOME VERSE—

The Mule

A mule can't pull while he's kickin'; The reverse is also true.

He can't kick while he's pullin'; Neither can I or you.

The best way to move the wagon; From out of the place where it's ditched;

Is to stand on your feet and quit kickin';

At least till we are unhitched.

Mules bray and are called plain stubborn;

Unable troubles to stand;

They kick at the least provocation, But who wants to be like them.

WINS TRIP TO INDIANAPOLIS

Brooks Sheppard to Visit Plant of Real Silk Hosiery Company

For the second straight time in as many years, Brooks Sheppard, of Elizabeth, a junior in the College, has established himself as one of the ace salesmen for the Real Silk Hosiery Company. For this achievement Brooks will again be given a free trip to the company's mill at Indianapolis with all expenses paid.

Each year the Real Silk Company sponsors this nation-wide contest for its collegiate salesmen and the one having the best record for the summer's work is entitled to the trip. Having the best record in '35 also, Brooks was granted a trip to the mills.

It was the plan of the Real Silk officials to have Brooks come to Indianapolis September 28, but he will not be able to attend because of his football activities here. He plans, however, to make the trip during the Christmas recess. Sheppard has been instrumental in obtaining for LeRoy Sheets, '36, a similar position with the company.

N. Y. A. STUDENTS REPORT FOR DUTY

Sixty-Four Scholarships Are Awarded; Several Yet to Be Granted

Sixty-four N. Y. A. scholarships have been accepted at the College this semester and seventeen scholarships are yet to be granted, states Robert T. Crawford, instructor in charge of the youth program here.

The revamped N. Y. A. program this year gives work to more students than any similar program in the past. Formerly N. Y. A. students were given full-time labor, or, in other words, were permitted to work maximum of fifty hours and to earn fifteen dollars a month. This year the program has been so divided that most of the scholarships cover half-time work, permitting each N. Y. A. student a maximum of twenty-five hours a month. However, in a few instances students have accepted scholarships calling for thirty-three and a third hours of work a month.

The College's N. Y. A. scholarship quota this year under the new arrangement is eighty-one. The amount of money the College has been allotted is \$6,075 for the school year, the same amount as was allowed the past year.

Of the sixty-four students who have accepted scholarships, thirty-eight have been assigned to teachers, from whom they will be given work schedules, three have been assigned to work at the gymnasium, sixteen to the Robert F. Kidd Library, and seven to janitor and electrical service.

COLLEGE FARM CROPS SHORT

Potato Yield Proves Disappointing, Says President Rohrbough

"All crops on the College farm are light this year due to the early summer drought," announces President E. G. Rohrbough.

The planting of potatoes on the farm this year was increased by fifty-five bushels, but the yield is disappointing. The apple crop is a complete failure.

Last week a Jersey cow was added to the dairy which includes Brown Swiss and Jerseys. Employees of the farm recently completed filling the silo.

— for Digestion's sake ... smoke Camels

Science Confirms the Truth of the Popular Phrase
"For Digestion's Sake ... Smoke Camels"

WHETHER your meal is a banquet or a sandwich, a Camel gives it more zest. Scientists have found that Camels gently stimulate the flow of the digestive fluids ... alkaline digestive fluids ... necessary for good digestion. Worry and nervousness interfere with this flow. Camels increase it! With their finer, costlier tobaccos, Camels give mildness a new meaning. And they have a matchless flavor all their own!

ROARING WIDE OPEN as constant vibration hammers at his nerves and digestion. Fred Jacoby, Jr. (above), says: "Camels make food taste better and help me get the good out of what I eat. Camels set me right!"

FIRE-CHIEF Frank Gilliar (above) forgets about food and rest till the last spark is out. He says: "Camels put back into eating the joy that nervous strain takes out of it."

LONG ASSIGNMENTS call for increased mental effort. Camels help you with their cheering "lift." Enjoy Camels, too, for their aid to digestion. Camels never jangle your nerves or tire your taste.

WHEN WASHINGTON DINES. The Presidential Room, main restaurant of the Mayflower Hotel, presents a memorable scene as famous men ... beautifully gowned women ... diplomats and statesmen gather. The famous Mayflower kitchens give forth a stream of tempting dishes. And from table after table the fragrant smoke of Camels rises. Commenting on the preference for Camels at the Mayflower, the famous *maitre d'hôtel*, Fred, says: "Our cosmopolitan clientele prefer Camels."

PIONEERS MEET FAIRMONT FIRST

Captain Paul Fulk to Lead '36 Grid Campaign For Glenville

On October 10 College students will have an opportunity to see Captain Paul Fulk lead the '36 edition of the Glenville Pioneer football team into action for the first time this year. The opponent will be Jasper Colebank's "Fighting Teachers" of Fairmont. The Pioneers will be seeking revenge in this contest for the 19-0 setback handed them the last time the Marion countians appeared here in 1934.

Following this game, two more home engagements will be played before the team takes the road. On Saturday, October 17, West Liberty will be met and the following week will be the big attraction of the year—the Home-coming game with the Concord Mountain Lions.

The Pioneers will then journey to Charleston to tackle the Morris Harvey Eagles in a nocturnal affair. The game will be played under the lights at Kanawha Park on the night of October 31. November 7 will find the Rohrbough-coached machine in their own bailiwick facing Rio Grande College of Ohio.

The remaining games will be played on the road. On November 14, the Pioneers will journey to Shepherdstown to meet the Shepherd State aggregation. The following week, November 20, the team will close the campaign at Buckhannon, meeting the highly-touted Wesleyan Bobcats on the Methodist field.

GAMES THIS WEEK

Thursday — New River vs. Valparaiso.

Friday — Marshall vs. Valparaiso. Potomac State vs. W. V. U. Freshmen. Morris Harvey vs. Transylvania. Fairmont vs. Concord.

Saturday — W. V. U. vs. Pittsburgh. Wesleyan vs. D. & E. Bethany vs. W. & J. Shepherd vs. U. S. Marines.

Pioneer Sport Shorts

By LLOYD ELLIOTT

Back to football gossip. Why not? The stuff is in the air... Coach A. F. Rohrbough is rapidly rounding out an eleven to pit against the Fairmont Teachers on October 10. On this year's squad are twenty men who saw service the past year and eighteen new faces, some of whom look plenty good... Captain Paul Fulk, that all-round athlete from Weston, and Sam Whitman, tackle, will be playing their last season with the Pioneers.

Fairmont will come here to avenge a 6-0 licking they got the past year. Likewise, the Pioneers are bent on holding that record over the Marion County men... Some say Guy Bennett, Andrew Edwards, John Bo-

hensky, Hillis Cottle and Robert Gibson are going to strut their stuff this year... Just so it's on the football field, boys... Results of hard practice: Lee Summers is totting a fractured hand; Brooks Sheppard is nursing a sprained elbow... Both men will likely be ready for the opening tilt.

Among the "old war horses" lost from the past season: Captain Thomas Pierce, Allen (Chuck) Smythe and Paul (Babe) Jones... Graduation took them. William (Bill) Malone, another stalwart of the past season, has not returned to school. He is working for the Pittsburgh & West Virginia Gas Company.

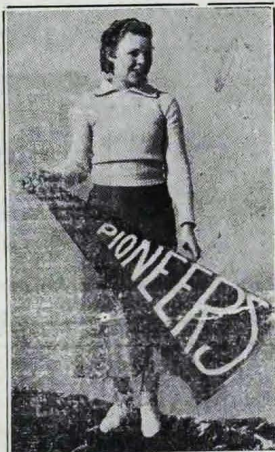

Aeronautical Supplies Received

John R. Wagner, instructor in the physics and chemistry department, has received 147 dollars worth of aeronautical supplies which will be put on display in the laboratory. He also received recently a plate glass for a large display case.

Chemistry Club Plans Work

Plans for the coming year were discussed at a meeting of the Chemistry Club, Tuesday evening, Sept. 22. Creaver Dimmick, president, was in charge.

The popular Andre Kostelanetz dance programs sponsored by Chesterfield cigarettes over the Columbia network will open their fall season September 30 with the return of Nino Martini as star of Wednesday evening broadcasts. Kay Thompson, Ray Heatherston and the Rhythm Singers will continue to hold the spotlight on Fridays, with a new broadcasting time of 8:30 E. S. T. The Martini programs on Wednesday evenings will also feature a new Chesterfield chorus of eighteen mixed voices.

Miss Winifred White, of Bridgeport, has returned to school and is now busy organizing her cheer-leading forces, preparatory to the opening of the football season here on October 10.

PIONEERS BEGIN PRACTICE SEPT. 14

Eighteen Lettermen Report—Many Others Have Had Varsity Experience

Thirty-eight men answered Coach A. F. (Nate) Rohrbough's call for football practice Monday, September 14. Practice began on the same day. During the first week fundamentals and tactics of the game were explained by Coach Rohrbough. The second week of practice began with hard scrimmages and continuous drill. The candidates were put through hard work and long practice periods during the latter part of the week in an effort to master the Pioneers style of play.

Eighteen lettermen were among those who reported for the first workout. The rest of the squad is made up of men who saw service last season and several freshmen.

Lettermen who are back this year are: Earle Bickle, Guy Bennett, John Bohensky, Nate Callahan, Hillis Cottle, Andrew Edwards, Captain Paul Fulk, Bob Gibson, Everett Howes, C. I. Karnes, Frank Martino, Paul Mason, Ralph Mendenhall, John Mowery, Russell Porterfield, Brooks Sheppard, Lee Summers, and Sam Whitman.

Other candidates include: John Barnett, Laddie Bell, Sterling Cunningham, Dexter Dotson, Glenn Finley, Ralph Haught, Carl Keister, Roy Mace, Woody Maxwell, Jim McMillen, Richard McKinney, Ken Norris, Bruce Parsons, Forrest Riffe, Chester Staats, Chester Vass, Elwin Wilson, Brooks Golden, and Clemit Humphries.

Improvements Made at Gynnasium

Before basketball season opens this year, Coach A. F. Rohrbough plans to have the gymnasium in A-1 condition. Throughout the summer many improvements have been made, among which were the installing of drinking fountains in the boys' and girls' dressing rooms. Other minor repairs have been made also, and along about Thanksgiving time the entire surface of the basketball court will be refinished with Seal-O-San. This is a liquid used to treat the wood and when it dries leaves a mirror-like finish.

Don Cossacks Here For Concert Tonight

Continued from page 1
Army under General Wrangel during the Great War.

The Cossacks' program provides a wide variety of appeal. The concert usually begins with a group of liturgical songs such as Gretchaninoff's Credo. The folk-songs of Russia make up a second group—songs rich in melodic beauty, such as the lovely and haunting "Red Sarafan," or the rollicking tale of Stenka Rasin, swashbuckling brigand, who to appease his men, jealous of his love for the Persian princess, throws her overboard into the Volga. The familiar Volga Boat song is given at every concert, either as a program number or as an encore.

Reserved seats for the concert may be obtained at the Grill. Students are asked to exchange their activities tickets for reserved seats. Admission prices are one dollar for adults and fifty-cents for all others. Several members of the student body will act as ushers.
