## NEW DORMITORY GETS FIRST HEAT

New System Will Guarantee  
Equalizing Temperature,  
Lessen Fuel Waste

Not the least of the many modern features incorporated in the new dormitory is a heating system which takes a fair grade of coal and utilizes a high percentage of its heat units which ordinarily pass off into the air.

Yesterday at 9 a. m. a fire was laid in one of the twin boilers for the first time. Automatic electric and thermostatic controls set the machinery in motion which pulverizes the coal and injects it by measured doses into the fire box where it is combined with the proper amount of air to produce a clear yellow blaze. Only one pound of steam pressure will be necessary to heat the new building, even on the coldest days.

## THANKS FOR THANKSGIVING

Three hundred and sixteen years ago, the pilgrims celebrated the First Thanksgiving Day in Holland. Ten years later, in a new world, they gave thanks to God for religious freedom, for His watchful care and protection over them and for a bountiful harvest.

Today, in the year 1936, we enjoy those same blessings for which the pilgrims offered up their thanksgiving, and, in addition, we enjoy the benefits of a machine civilization, and a school system second to none. Everywhere, boundless opportunities exist for distinguished service in creating a more healthful environment and in seeking to elevate the spiritual, moral, social and economic status of mankind.

We give thanks for the progress that has been made, and for the youth of the land who will carry on. We pray for Divine guidance in the task that remains.—Otis Rexroad.

## PROCRASTINATION A WASTE OF TIME

Procrastination is a waste of time. Therefore, if we desire success in life, we should make a permanent selection of our vocation early and strive diligently to become proficient—be the bird that gets the worm.

We should not be satisfied with partial success, instead we should keep on climbing until we have surpassed others and have brought to light the best that is in us. Then it is that others can see the blossom of our success.

An effort is required in order to obtain things of high merit. They cannot be found by traveling the road of least resistance. Consequently, we should nourish in ourselves the hearth of energy and will-power. We should systematize our efforts and concentrate our attention. We should descend into the innermost depths of our own self in order to bring forth all there is in us, indeed more than there is in us. Remember, our will-power can perform that miracle. Demand it be performed.—Decoe Parsons.

## Between the Columns

### Thanksgiving

In the lingering shadows of yesterday looms remembrance of a fortitude and integrity with which our forefathers were endowed—looms the spirit of Thanksgiving—which all of us this week will pause to observe.

Toiling, sorrowing and rejoicing, how these clusters of early New England Pilgrims must have suffered and yet won. They won, but did not forget.

nor fail to heed the incomprehensible aid of the unseen—they did not fail to offer thanks to Him—the

Creator of all things. Imbued with the unquestionable logic that "Heaven helps those that help themselves," those pioneer sires carried forward the spirit of the day and appropriately called it Thanksgiving.

Today, true-blooded Americans, living in a land of plenty, should not forget the First Thanksgiving—they should remember that the same guiding influence is responsible for the bounties which we enjoy.

And so the Mercury staff, in the gift of the day, pauses to extend to students and members of the faculty best wishes for a pleasant Thanksgiving.—Denzel Garrett.

### Flinn to Take Pictures

Arrangements to have the pictures taken for "The Pioneer" have been completed. Ray Thompson, local photographer, has the contract and he has arranged for a representative of the Flinn Studio of Clarksburg to come to Glenville on December 1 and 2 to take all individual pictures. ## A THOUGHT FOR

—THANKSGIVING—

## Campus :—: :—: Capers

With the Thanksgiving recess so near at hand, a temporary cessation of romantic affairs in these parts is inevitable. . . . Now is the time to inform the "waiting one" in the old hometown that you will be there soon. . . . You want a proper reception upon your arrival, don't you? . . . But before embarking for the old hunting grounds, let's take a slight dose of memory fresher. . . . You might see something that may be of interest. . . . Who knows? . . . Out of the old bag of tricks, my scrutiny is concentrated upon little Jim Osbourne, nestled away with his books at the Lodge, while saucy Sadie is out giving him the run-around with? . . . Better not disclose now. . . . Might prove fatal. . . . Willis Tattersson, ex-officio at the Cottage, seems to be spending a lot of time in the library with a black-haired little miss. . . . Is my face red? . . . Correction! Since the last publication of this conglomerate of superfluous details, Ray and Lois have been reconciled. . . . Doesn't that take the rag off the bush? . . . Slight complications have arisen in the Hamilton-Stalaker affair, and Vorley has taken a hand in the measure. . . . "Blackie" Barnett, highly elated over mid-semester returns, is on the loose again. . . . This time the lucky girl is the Verona species. . . . Lu Brown seems to have given the Lodge an unexpected adieu. . . . Could Spencer's Sutton have been instrumental? . . . Looks as though Scamper is in single harness again. . . . Speed and Elizabeth are getting rather intimate nowadays. . . . Well, burn my whiskers! . . . Look who's here. . . . Lady and Harry alive. . . . How was the Sutton sojourn, boys? . . . Get any new bear stories? . . . I'll wager a certain diminutive engineer is sorry that the new dorm is nearing completion. . . . Reports from the Lodge say Huffman is getting lots of fan mail lately. . . . Lloyd Singleton is ready to sweep some worthy little girl off her feet. . . . That's why he lugs a wicked broom. . . . Camden Flats seems to be the frequent destination of "Yut" Porterfield. . . . Behind time? —The Mercury Stogie.

### IN THE DAY'S NEWS—

The University of Iowa will soon install a "dry" night club for its students to discourage drinking at roadhouses.

Soviet explorers reported the discovery of nineteen new islands in the north polar regions.

A Cleveland coach says he can tell football practice season is over when he can begin to distinguish between players and tackling dummies.

A writer muses on what the half-century-old Statue of Liberty would say if she could speak. She'd probably claim to be still in her twenties.

Quite different from the mastodon is the common household fly, But equally obnoxious When he buzzes 'round your pie. —Buffalo News.

### AND SOME HUMOR—

Instructor (to student sitting near another who has gone to sleep during lecture): "Wake him up."  
Student: "Wake him up yourself. You put him to sleep."

"Father," said little Don Shreve as he turned the pages of his history book, "how did the cliff dwellers keep warm in the winter time?"  
"Why, I guess they used the mountain ranges. Now don't ask any more foolish questions."

Little Boy: "Say, mister, let me have six of those diapers."  
Drug Clerk: "Here you are, sonny. That'll be ninety cents for the diapers, and two cents for the tax."  
Little Boy: "The heck with the tacks. Me brudder uses safety pins."

### —A THOUGHT FOR TODAY

It is not always important whether a thing is true or not; it may have other virtues, beauty or interest or amusement; but at least one should know whether a thing is true, and see it in a clear light for what it is worth. It is not enough to appreciate the fine things of life. One should strive to make them immediately and integrally a part of one's own life.—Selected.

### FRESHMEN SHOULD KNOW—

Fiction are not the books which are fixed on the shelves, not to be removed.

A planet is a body of earth entirely surrounded by sky.

Man has three sets of teeth—temporary, permanent, and false.

The single tax is not a tax on bachelors.

Woman is the animal which possesses the greatest attachment for man.

### —AND SOME VERSE

I'm through with all women, they're fickle, untrue,  
They make you, then break you, and laugh when they're through.  
They wreck and degrade you with motives most base,  
Then reward all your love with a slap in the face.

I'm done with all women, there's not one alive,  
Who's worth all the misery that men must survive,

To win their black hearts where a flame seems to dwell,  
That is fed by the men that are under their spell.

I'm through with all women, they cheat and they lie,  
They prey on us males to the day that they die.

They tease us, torment us and drive us to sin—

Say, who is the blonde that just now came in?

## A THOUGHT THIS WEEK

"It is the school's business to give students as broad a knowledge as possible, to see that they acquire a disciplined intelligence and to see that they get discriminating taste. If we can take care of these things, the others will take care of themselves. . . .

"Our schools are better than they ever have been. . . . The educational system in the United States is in the best condition of any in the world at the present time."—Dr. C. S. ## The LETTER BOX

To the Writer of "Campus Capers":

The teaching profession is one held highest in the public's eye and lowest in its pocketbook. We are knocked from the time we enter a teachers' college until we push up daisies in a pauper's lot. Public opinion knocks our work, our education, our grammar, and most of all, our morals. Even the slightest gossip about a teacher is kindling for scandal; for, "where there is smoke there must be fire," is the by-word of the Public.

Teachers cultivate great friendships, but sometimes these beautiful friendships are broken because a thoughtless person said something which grew into scandal, or the friendship was broken to preserve, at least, the memory of a beautiful, innocent friendship.

As future teacher to future teacher, do not play with "oral murder" by using names so fluently in your gossip column, or at least, do not word your gossip so that it can be distorted.—E. B.

John Bohensky and John Mowrey spent the week-end at their homes in Clarksburg.

## Pioneer-Bobcat Sidelights

By DICK DYER

'Tis true, a much heavier West Virginia Wesleyan eleven trounced our own blue and white clad warriors Friday, but the Pioneers were all ways in the thick of the fray and were battling when the final whistle blew. Despite this setback, Glenville concluded one of the most successful gridiron campaigns since A. P. ("Nate") Rohrbough assumed command here.

Featured by the spectacular defensive play of John Bohensky, the Pioneers gave an excellent account of themselves against the 'Cats. Playing a position that calls for iron-clad nerve, Bohensky conducted himself in a superb manner. His specialty seemed to be the halting of the much-heralded Leonard ("Feet") Barnum, the Bobcats' speedy halfback.

A bit of praise is extended to Capt. Paul Fulks and Sam Whitman,

who wrote fins to their collegiate football careers. At his tackle position, Whitman played bang-up ball and intercepted a Wesleyan pass that resulted in the Pioneers' only score. This tally was made by Fulks, who stood the crowd on its head when he caught Gibson's pass and sprinted 28 yards for the score. Incidentally, Fulks also scored the only touchdown against Wesleyan last year, when he caught a pass and galloped 60 yards.

Aided by Frank Beall and his Gilmer County band, Glenville had

adequate support on the sidelines. Many students and local supporters followed the team to Upshur County and rendered support to Winifred ("Fritzi") White, Pioneer cheer leader. The Wesleyan band also was on hand, and throughout the afternoon popular musical numbers were heard.

Will Give Minstrel December 11

The second annual G Club minstrel will be given Friday night, Dec. 11, President Paul Fulks announced last night following a meeting in

Kanawha Hall. Miss Margaret Dobson, instructor in speech in the College, will assist in directing the minstrel. Miss Virginia Vinson will be piano accompanist. In charge of ticket sales will be Millard Cunningham.

Lucille Cain was shopping in Clarksburg, Saturday.

Grace Summers, Mary Leone West, Rudolph Urbanick, June Riley, and Whitman Hull attended the Wesleyan-Glenville game at Buckhannon Friday.

America's traditional Thanksgiving feast table, bowed by the weight of 15,000,000 turkeys the past year, will sag with 20,000,000 of them this year. This year's supply of gobblers is "bigger and better." And they won't cost as much this year, either.

# For Digestion's Sake Smoke Camels!

Good digestion and a sense of well-being are helpful allies for every one!

PEOPLE in every walk of life... men and women... agree that Camels ease strain and encourage digestive well-being. Millions of smokers find that "Camels set you right!"

Make Camels a part of dining. Camels increase the flow of digestive fluids... alkaline digestive fluids... so necessary to good nutrition. And Camels never tire your taste or get on your nerves.

# BOB CATS TRIUMPH OVER PIONEERS IN EXCITING BATTLE

Methodists' Powerful Eleven  
Subdues Lighter Glenville  
Team

## CAPT. FULKS TALLIES

Bokenky, Bickel, Howes Play Good  
Defensive Game—Bennett and  
Gibson Strong

Buckhannon, Nov. 20.—After holding the Wesleyan Bobcats scoreless the first quarter, the Pioneers weakened in the second and third periods to allow the Methodists four touchdowns and as many extra points. The Wesleyan machine proved too powerful for a lighter Glenville eleven and came out on top of a 28-6 score. The game closed the season for Glenville.

The Pioneers threatened in the first minutes of the game, as Edwards, Bennett and Gibson alternated to carry the ball to the Wesleyan 4-yard stripe. From this point Martino attempted a field goal which was wide only by inches.

Peterson, shifty Bobcat halfback, started the scoring early in the second

NICE GOING, Pioneers! Winning five out of seven from the state's best teams is something to start yelling about . . . Scoring 173 points, and holding the opponents to 34 is something to crow about . . . So let's start celebrating instead of feeling so low about the Wesleyan Game.

PERHAPS CEBE ROSS realizes by now that it takes everything he has to lick us . . . We noticed that he didn't start the second team as he did last year . . . Neither did he waste any time in putting Barnum, his all-American hope, in the ol' ball game.

WESLEYAN HAS a great team . . . The best we have seen this year . . . Therefore, it wasn't anything to cry over. The Bobcats licked Duquesne, Catholic U., Salem, and Waynesburg before they added Glenville's scalp . . . The Glenville fans and the Gilmer County band who went to Buckhannon Friday were not disappointed. They saw two great ball teams on the field.

LET'S LOOK to next year . . . Wesleyan loses six of their mainstays while the Pioneers lose only two, Fulks and Whitman . . . The victory will be ours in 1937 . . . Wait and see.

BASKETBALL started yesterday for Coach A. F. Rohrbough's sharpshooters, and, judging from the candidates who reported, we shall have sweet revenge for that Wesleyan gridiron defeat.

AN OHIO basketball trip is being planned for the Pioneers . . . Ohio University is to be played December 15 . . . Other teams in the neighboring state are under consideration . . . The Pennsylvania teams are going to be dropped from the schedule, so we hear.

The Gamblers proved too powerful for the Sunday School boys last night in the "grudge" basketball game. The Gamblers, headed by Robert Davies, won 51 to 49 in an extra period contest. Lilley and Rhoades scored 19 and 14 points respectively for the Gamblers, while Martino with 18 points was high scorer for the Sunday School boys.

ond period. On the exchange of punts, Wesleyan got the ball on the Glenville 31. Gilmore carried it to the 20, and on the next play Peterson scored on a wide end run and added the extra point by placekick.

A few minutes later, with the ball on the Glenville 17, Barnum dropped back to midfield and tossed a beautiful pass to Orr in the end zone for the second score. Peterson's place kick was good.

Whitman intercepted Barnum's pass on the Glenville 23 and returned it to the 40. On the next play, Gibson tossed a long pass to Fulks who snatched it on the Wesleyan 30 and raced over the goal line. Martino's kick was low. The half ended without further scoring.

After a punting duel in which neither team gained any ground, the Bobcats started a drive late in the third quarter which gained them two touchdowns. Gilmore scored the first after a series of line plays had put the ball on the Glenville 13-yard line. Orr took Barnum's pass a few minutes later for the second score. Peterson added both extra points by placekicks.

Gibson, Bennett, and Edwards were the best ground gainers for the Pioneers, while Howes, Summers, Fulks, Martino, Whitman, and Bickel were the stand-outs in the line. The blocking and defensive work of John Bohensky was especially commendable. The line-ups:

I. Such tenure laws as will protect teachers from political machinations and the uncertainty that grows out of the system of employing teachers annually.

II. An adequate retirement system.

III. Amendments to existing laws providing for: (1) Sick leave with pay for teachers. (2) Change in the "needed teacher" formula. (3) Boards of education to be elected on a county-wide non-partisan ballot for terms of six years at special elections. (4) Three to five year terms for county superintendents; superintendent to be elected in April preceding July when he takes office. (5) Adjustment of debt levy-bond and other—including refunding of school bonds at lower interest rates and the assumption by county boards of principal and interest payments on bonds outstanding against old districts whose properties are now being used by the county board of education. (6) Provision for buildings including transfer of major part of debt levies to building purposes; extension of levies for building purposes for these years by a

vote of the people; and provision for the accumulation of an "ear-marked" building fund in equalization-aid counties where balances remain after financing minimum school costs. (7) Increased state aid to include payment of basic teachers salaries for nine months and one-fourth of the amount appropriated for salaries for maintenance uses. (8) Confining boards of education, in the employment of teachers to choosing only those nominated by the superintendent, and assigning, transferring, promoting, suspending or dismissing employees only upon the recommendation of the superintendent.

IV. Gradual introduction of free textbooks and county adoption whether free or otherwise.

V. Adjustment of salaries so as to increase materially the salary of teachers with better preparation.

VI. A constitutional amendment making it mandatory on the part of the legislature to appropriate an annual amount for the support of free schools equal to \$50 per pupil in average daily attendance in the elementary and high schools, this appropriation to have first claim on all state revenues.
