Old Fashioned Yule Cards Form New Theme

Old-fashioned post card Christ-mas greeting formed the theme for a bulletin board display made in materials and methods class, Education 307, Monday. The display was a concrete ex-ample of what high school clubs and other high school clubs and other high school create unterest in extra-curricular acti-vitites.

interest in extra-curricular acti-vitites. Delores Black, an eleventh grade student of Sand Fork high school, collected the cards as one of the collections in the hobby club at her school. She talked briefly to the student teaching class on Monday evening concerning the organization of clubs. Shirley Ocbourne, '51 assisted Delores in the arrangement of the display. The display was placed in the library in the afternoor.

Annual Presentation

Annual Presentation Presented annually at Glenville State, "The Messiah" usually draws a large crowd from the col-lege and town, since it has come to be known as one of the greatest sacred vocal works.

sacred vocal works. The Choral work was written in 24 days in 1741 by G. F. Handel, and was first performed in Dublin, Ireland, in 1742. If was presented for the first time in England in 1743, and during this performance the King and his subjects were so lenraptuerd by the "Hallelujah Chorus" that they rose to their feet in reverence. The custom of rising during the chorus has been practiced since that time.

Stern UMT Advocated

Dr. James B. Conant, president of Harvard university, has adovocated two years of universal military service for every young man when he reaches 18—whether or not he is physically handicapped.

Dr. Conant's statement has raised a storm of contro-versy in scientific, educational and goverment manpower circles. He has reccommended that the nation's young manhood perform this service "at a low rate of pay." Phy-sically handicapped young men should be enrolled to pre-form those services for the nation which it is possible for them to preform he stated them to preform, he stated.

The pros and cons of this measure are the subject of much argument and debate throughout the country, but it would seem that something will have to be done to protect our imperiled country.

Most men on the Glenville State campus agree that these stern measures advocated by Dr. Conant are necessary to preserve and safeguard this country against aggression.

No one likes peacetime conscription, but what we fail to do now will come home to roost in 1953.

Christmas Meaning Lost

Next week we celebrate Christmas, but why and how? The actual meaning and reason for this--the greatest observance of all--is fading into the past. Now, it is mearly a time to accept gifts, both by young and old, while the college students think only of the big dance or party—in the slang of the day. "to throw a big one."

Ohristmas has come to be one of the most commercializ-observances of the year--a time for businssmen to clean up through high pressure advertizing, and, for the most the airwaves and through the newspapers, phase of the yule part, we, the gullible public, eat it up. Hammering away via season has been the carolling and hymm singing. Now we have the "Red Nosed Reindeer," and "I Just Go Nuts at Christmas.'

Old Scrooge would have good reason to hide away in his lonely garret if he were around to celebrate Christmas in this hectic, fast moveing world of today.

Looking way back into history, we find that Christmas is actually the anniversary of the birth of Christ. Surely it is a time for merrymaking and happiness, but it is also a time for prayers and thankfulness. As to the spirit of giving and receiving, "the gift without the giver is bare." — B. H.

Doorknob Is Needed

As small an object as a doorknob should certainly pose no earth-shaking problem for anyone; but the lack of one is definitely "fouling up the works" at the Glenville State student union.

Disregarding the fact that the absence of a doorknob has caused innumerable inconveniences to many students and faculty members, the angle of possible danger should be considered. Recently in the rush that followed after the union door was finally opened from the outside, a small child suffered a nasty bump on the head that could easily have been more serious.

Surely someone connected with the Pine-Ear could, without too much difficulty, secure and install a doorknob and rectify a very unpleasant campus situation . . . just one little doorknob . . . B. B.
