Music Students Represent Glenville At Twelfth Annual Music Conference

Seven music students will represent Glenville State College in the All-College Symphony Orchestra Concert which will be part of the state music conference this month at Morris Harvey College.

According to Miss Bertha Olsen, assistant professor of music, the following students will participate in the orchestra: Francis Angelos, first violin; Harold Hudnall, second violin; Ernest Backus, viola; Shirley Hager, Joyce Brannon, Harold Johnson, cello, and David Arbogast, bass.

The Twelfth Annual State Music Conference sponsored by the W. Va. Music Educators Association will be held at Morris Harvey Feb. 20, 21, 22. The evening program for Feb. 20 will include the W. Va. All-College Symphony Orchestra Concert. Conducting the orchestra will be Wolfgang Vacano, associate professor of opera and opera conductor at Indiana University.

Conductor From IU
Born in Germany, Vacano studied at the State Academy of Music in Berlin, conducted for ten years at opera houses in Germany and Switzerland, and in 1951 became a member of the faculty at Indiana University in Bloomington.

It is expected that the orchestra will rehearse all day before presenting the concert at 8:30 in the Morris Harvey Auditorium. Other students, besides those in the orchestra, and Glenville State faculty members will attend the conference.

DAVID EDWARD WALLACE

Music Instructor Joins GSC Staff

David Edward Wallace, music instructor, has recently been placed on the Glenville State College faculty.

A native of Raleigh County, Wallace is a 1950 graduate of West Virginia University. He received his Master of Arts Degree in 1951 from Northwestern University. Before accepting the position at Glenville, Wallace taught in Raleigh County and was credit manager for a firm in Evanston, Ill., for six years.

Replaces Fasthoff
Wallace is replacing Henry J. Fasthoff, who died suddenly last October. Before the new instructor was hired, Prof. Harold Orendorff, Asst. Prof. Bertha E. Olsen, and advanced music majors had been teaching all the vocal and instrumental classes.

The new instructor is the father of two children, Edward Paul, who is three years old, and Robert Eugene, nine months old. He is a
(Continued on Page 2)

Play Tryout Date To Be Announced

Try-outs for George Bernard Shaw's farce-comedy, "The Misalliance," will be announced in the next few days. This comedy has been recently presented on Broadway and on tours when it was revived and staged by Cyril Ritchard. There are parts in the play for three women and six men.

The play is a violent farce involving the escapades of a madcap household in the England of 1910. Men chase women, and women chase men, and ideas fly in and out of the vigorous action of the play.

Try-outs Will Be Soon
Critic John Gosser ranks the play just behind Wilde's "The Importance of Being Earnest." Actually, "The Misalliance" was nearly forgotten until its recent Broadway revival.

Try-outs will be open to all who are interested. Notices announcing the exact date will be posted about the campus.

Three student-directed one act plays are to be given in the near future. Those directing plays are Patricia Knicoley, "The Monkey's Paw;" Jim White, "The Shadow of the Cathedral;" and Lorretta Perrell, "Another Way Out."

3 Girls Manage House This Term

Three home economics students are living in the Home Management House this term, according to Assistant Professor Elma Jean Woolfer, home economics instructor.

Alicia Ann Jones, a native of Sand Fork; Carolyn Ranson, from Charleston; and Arlene Hinterer, from Doddridge County are residents of the house for this nine weeks period.

Miss Jones is a senior home economics student. Miss Ranson is a junior with fields in home economics and English. Miss Hinterer is a junior home economics student.

28 Student Teachers Begin Duties In 8 Area Schools For Third Term

Seventeen seniors have been placed in various high schools for their directed teaching this term according to Nelson Well, supervisor of secondary education.

DAN T. MOORE

'Spy Warfare' Is Lyceum Subject

Dan Tyler Moore, a gifted writer and speaker, will present the third in the lyceum programs for the current school year tomorrow night in the GSC Auditorium. Moore will discuss "Spy Warfare Today" beginning at 8 p.m.

Moore was graduated from Yale University in 1931 and went to work in Wall Street. This was followed by work for the federal government and for the state government of Ohio where he acquired a reputation for tracking down complex types of criminals.

Was Counterspy
This experience was valuable during World War II when he was a counterspy for the O.S.S. and active in counter-espionage in Egypt.

A gifted writer as well as speaker, Moore's articles have appeared in leading magazines and newspapers. He is the only speaker on the American platform who has headed a large-scale counter intelligence operation in an important area.

Ottis E. Boyles, Jr., and Gene F. Elmore Jr. will be teaching music at Weston High School. Assigned to Calhoun County High School are George Cook, Steven Cooper, and Keith Pritt. Cook and Pritt both have fields in physical education and biology. Cooper will teach biological science and physical education.

Students placed in Glenville High School and their fields are Trent Busch, English and speech; Connie Sams, social studies and English; David Unstead, biology and general and physical science; and Dorothy Matics, business education and social studies.

Kermit and Virginia Mick and Mida Bailey will be teaching in Doddridge County High School. Mrs. Mick and Miss Bailey both have fields in home economics and physical education. Mick will teach physical education and biology.

Assigned to Sutton High School are Kay Watkins, home economics and Bonnie Gorrell, home economics.

Donald C. Wedekamm will be teaching biology and general science at Harrisville High School and Sally Zeigler, who has been placed in Sand Fork High School, will teach home economics and English.

Chaucer Missing; Arrest Is Sought

If anyone knows the whereabouts of this volume, or any information leading to its arrest, all that is asked is that he leave the book somewhere in the library-reading room, on the tables, or check-out desk—where it can be found.

What volume? Volume XXII, Chaucer," of the World's Great Books set, a gift to the Robert F. Kidd Library. According to Floyd W. Miller, head librarian, and Miss Mary Susan Brown, assistant librarian, the volume is missing from the library; it has not been signed out.

The set, which contains the world's greatest literature, the ideas and philosophy of such personalities as Plato, Shakespeare, Melville, Darwin, Marx, and Freud, originally had 54 volumes; the set is valued at \$190-\$200, but one missing book greatly lowers the value of the set.

Jean Loyd Receives State IFYE Honor

Miss Jean Bell Loyd, daughter of Mr. and Mrs. B. F. Loyd, R.F.D. 1, Sutton, has been chosen West Virginia's International Farm Youth Exchange student to Norway this summer.

Miss Loyd was a 1957 graduate of Glenville State College with an A.B. degree in elementary education. She is now teaching in North Olinstead, Ohio.

SCORES NOT AVAILABLE
Results of the Beckley, Wesleyan and Fairmont games were not available when the MERCURY went to press.

Cupid Is Given Assistance In Hurling Darts At Hearts; Girls Will Invite Boys To St. Valentine's Day Sock Hop

Every so often Cupid needs a little assistance in hurling his darts at the hearts of the Glenville State College lads and lassies. Therefore, tradition and social custom have been cast aside, and the lassies are urged to invite their favorite lads to the annual Xi Beta Sock Hop set for Friday night.

An annual affair the Sock Hop is sponsored by the Xi Beta Tau Sorority. According to sorority members, it has been a tradition of the sorority to sponsor at least once a year an activity to which the girls can have their choice of the campus manhood.

The dance will be held in the student union Friday night from 9 to 12. Tickets are priced at \$2.00 per couple. According to Winnetta Bowman, sorority treasurer, tickets may be purchased from any member of the sorority, or at the door during the night of the dance. The Rhythm Aces, a dance orchestra from Marietta, Ohio, will play at the dance.

Featured at the dance will be decorations and activities centering around St. Valentine's Day. The dance has long been termed a "Sock Hop" because it is a tradition for everyone to dance in his stocking feet. Shoes will be checked at the door by members of the sorority. This will be a complimentary service of the Xi Betas.

New members of the sorority will be in charge of the decorations, which will feature a large heart covering one end of the Union. This will be constructed of chicken wire and napkins, according to Arminia Tucker, chairman of the decorations committee. Miss Tucker is a junior from West Union. Other newly initiated members who will assist with the decorations are Jane

Ruckman, Mary Jo Chisler, Mary Francis Rollyson, Sue Valentine, Nancy Gillespie, and Garnet Boblett.

Members of the sorority are having dance program books constructed. These are being financed by the selling of advertising to businesses and organizations in town. Upon arrival at the dance each boy will be given one and the girls will register for dances in the boys' books.

Phyllis Starkey heads the committee in charge of selling advertising for the dance books. Mrs. Starkey is a senior physical education major from Glenville. Other members of this committee include Jane Riddle and Virginia Davis.

Appointed as a committee to make the dance books were Phyllis Veith, Barbara Zinn, and Joyce Jackson.

Librarian Miller Attends ALA Meet

Associate Professor and Mrs. Floyd W. Miller recently went to Chicago, where Miller attended the mid-winter conference of the American Library Association.

While there, Miller attended several meetings, one a section on Teacher's College Libraries in which Catherine Stokes, librarian of Western Michigan University, discussed the formulation of a Core List of books in the field of education.

She is now in the process of completing the list and Miller, has volunteered to check the list against Glenville State's collection. This list will provide a check against which schools of education may evaluate their books and see how they rate with a standardized Core List of education books.

Faculty Members Will Attend Science Meet

John V. White, assistant professor of mathematics, and Dr. Max Ward, chairman of Science and Mathematics Division, will go to Washington D. C., March 7 and 8 to attend a meeting of the Midwest Region State College Conference on Science and Mathematics Teacher Education. White and Ward will take part in various discussion groups at the meeting.

MERCURY RETAINS REPORTERS
John Boggs, Shirley Cawthon, Iolene Harding, and Shirley Lowe have been retained on the MERCURY's reporting staff.

Is Freedom Enough?

"Baseball could not flourish without fans, but where are the science fans?" These are the words used by Scientist Edward Teller, father of the H bomb, in urging a program of "science-appreciation" for both children and adults, as printed in a November issue of *Time* magazine.

Since November, there has not been a decreased interest in the American versus Russian battle for first place in space control, which is the rocketing force behind the new interest in science. Rather there have been since then new and even more startling developments, which have at long last placed the U. S. back in the race for first place in missile development.

Hungarian-born Teller, associate director of the University of California's Radiation Laboratory, has for years been predicting the rise of Russia insofar as the development of science and technology is concerned. Teller and his associates have gone to the heart of the matter in describing our precarious position. They have said that the reason the U. S. lags behind Russia now can be readily seen in the light of the educational programs of both nations.

Only one U. S. high school student out of 24 takes any physics at all, and only one out of four takes algebra. In comparison with this, in the Russian school system mathematics is taught through trigonometry, five years of physics are taught, four years of chemistry are taught, and students in every grade beginning with the fourth are taught general science. There is no high school in America where a student could get this thorough a course, even if he wanted it a great deal.

Teller is not a subscriber to the theory that one must have a special inborn talent for science; he feels that talent is basically an intense interest. He says that the way to produce future scientists is to get them interested in it while they are young. "Ten years old may not be early enough," he says, "but it is certainly not too early."

Does this opinion of one of the most noted scientists of our time have anything to say to us? Educators of the present and we as future educators have played the ostrich too long. No longer can we bury our heads in the sands casually labeled "democracy" and fail to see that even if we are in the right concerning our theory of freedom, Russia, however wrong in theory she may be, is producing the goods.

We stubbornly grasp for that one little word which has been both misused and over used — democracy. Freedom, we say, a child must have freedom to decide whether he wants to take algebra or not, even if his intelligence quotient points to genius and other tests point out his mathematical ability. We say a child must have freedom to decide whether he will take wood-working or general science. Then, he must be free to decide whether he will miss algebra class once or twice a week to practice baseball. He simply must be free to practice for the school play, so take him out of chemistry class.

Freedom — where will freedom be 100 years from now? If the Russians out-develop us in the race for first place in the science field, they will be the world's strongest power. Their patterns of development and beliefs will be accepted over the world. Where will freedom be then?

Educators and scientists are beginning to agree that our educational system is sadly lacking. In a few months for some of us, and in a few years for others, we will be adding our voice to the educational programs of West Virginia and other states. Possible we won't shake the world but let's be equipped to help shake it, if that it needs. READ, CRITICIZE, UNDERSTAND, find out where we stand as a state and as a nation. For we as teachers are in a vital position. This writer would go so far as to say that the fate of America and of world-wide peace lies in the hands of TEACHERS.

—Joyce Jackson

Nursery School Meets At HMH

Six Glenville four-year olds are enrolled in the College Nursery School with Miss Elma Jean Woofter, assistant professor, in charge. Nursery school meets each morning Monday through Friday from 9-12.

Children enrolled are Kim Jones, daughter of Dr. and Mrs. James Gay Jones; Barbara Ward, daughter of Dr. and Mrs. Max Ward; Jo Ann Westfall, daughter of Mr. and Mrs. Chester Westfall; Robbie Fisher, son of Mr. and Mrs. Vernon Fisher; Danny Law, son of Mr. and Mrs. Beryl Law; and Chuck White, son of Mr. and Mrs. John White.

Miss Woofter is assisted in Nursery school by members of Home Economics 301, Child Care and Guidance Class Members of this class are Sanda Baker, Laura Brooks, Shirley Cawthon, Betty Creasy, Janet Dorsey, Flora Dyer, Jean Hogue, Leona Hampton.

Marjorie Hall, Mary Kemper Hull, Jane McPherson, Gail Ratliff, Martha Reese, Roberta Starcher, Phyllis Vieth, Ann Patterson, Marie Reese and Marilyn Smith.

Dr. Heflin Attends Chicago Meeting

Dr. Harry B. Heflin, president of Glenville State College, will represent West Virginia at the annual meeting of the American Association of Colleges for Teacher Education, which will be held in Chicago next week.

The meeting will be a three-day affair, beginning next Thursday and closing Saturday. On Friday, Dr. Heflin will appear on a panel set up for discussion of the physical facilities manual for the AACTE.

Hunt, Stump Visit Glenville Campus

Dale Hunt, 1957 graduate of Glenville State, visited the campus Jan. 29, and talked to various classes according to Dr. Max Ward, chairman, Science and Mathematics Division at GSC.

An active student while on campus, Hunt is now at Western Reserve University in Cleveland, Ohio, majoring in microbiology. He was one of six assistants in biology appointed by Western Reserve last year.

While a student at Glenville, Hunt was on the Dean's list each term; belonged to the International Relations Club, the Holy Roller Court, and was president of the Dorm Council of Louis Bennett Hall.

Also a visitor at Glenville recently was Harold R. Stump, Jr., formerly of Spencer, who attended GSC in 1955 and 1956. Stump is now employed in the engineering department of Procter and Gamble, Cincinnati, Ohio. He attended West Virginia University for one semester after leaving Glenville.

member of the West Virginia Education Association, the National Education Association, and the Methodist Church. He is a World War II veteran, serving with the Navy.

Lincoln showed what fame may be won and what services be rendered by a plain son of the people unaided by any gifts of fortune.

THREE ATTRACTIVE Pioneer basketball fans are Coach Byrd's wife, Louise, and daughters, Debby and Becky. These three may be found "down front" at each home game. Mrs. Byrd, a native of Texas, admits she does not always remain calm during a close contest. Debby and Becky indicate a certain interest in the cheerleaders. All three display a definite fondness for Coach Byrd and the Pioneers. (MERCURY photo by Deel)

Byrd Belles Basketball Backers Attend Games; Cheer Pioneers, Coach

By DOROTHY BUTLER

Contrary to the popular conception of Texans as big, strapping individuals with deep voices, we have a Texan on campus who is a petite, attractive, soft-spoken lady. She is Elizabeth Louise Byrd, who thinks of herself as Mrs. Leland Byrd above all else. This fact could not escape this reporter's attention during our interview, for every sixth word she said would be either his name or a reference to him.

Just finishing their dinner and waiting to watch television, were the two Byrd children, Deborah Lea and Rebecca Lou. Debby and Becky, red and dark-brown hair shining, are known to almost everyone on campus. Like their mother, they are avid fans of their coach-father's basketball team. Mrs. Byrd adds that the girls are deeply interested in the cheerleaders, too. Future cheerleaders, maybe?

Comes from Texas

Born in Milford, Texas, Mrs. Byrd later moved with her family to Oklahoma. She was graduated from Alva High School in Hollis, Okla., where her parents still live. Both her father, a leather-manufacturer, and her mother were born in Texas. A younger sister, Joan, lives in Oklahoma City and her brother, Jimmy, is a junior in high school.

After being graduated from high school, Mrs. Byrd—then Miss Machen—returned to Texas. For three years she worked for Civil Service, as an accounting clerk. While she held this position she met Lt. Leland Byrd, then Special Service Officer in the U. S. Army. They went to Oklahoma to be married July 6, 1952.

That September Mr. Byrd came to West Virginia University to work toward his Master's Degree. Mrs. Byrd had never been in West Virginia; in fact, she'd never been in any mountainous territory. She laughed as she told about her grand entrance: it was night-time, and the rain was pouring down. She had been asleep for awhile, and when she awoke, she took one look out the car window at the narrow, twisting, roads and was frankly frightened half-to-death. She persuaded Mr. Byrd to stop the car, but he finally convinced her that the roads were normal, and that they really must go on.

At Hinton High

Their first, child, Deborah Lea, was born May 16, 1953. In July, '53, Mr. Byrd went to Hinton where he was high school coach for two years. Rebecca Lou was born August 30, 1954; the following fall Mr. Byrd accepted the position of basketball coach at Glenville State College, a position he still holds.

In reply to a query concerning the life of the wife of the coach, Mrs. Byrd said it pleased her to see the influence and effect her husband's efforts can have upon a group of boys. She added, "Although I don't know much about the game, I do think it's exciting; any contest is."

Always Calm?

Mrs. Byrd believes that her husband doesn't get as excited about a game as she does. However, after the suspense-packed Alderson-Broadus game here, she asked Mr. Byrd if he hadn't been more excited.

Sorority Initiates Ten New Members

Kappa Chi Kappa had its formal initiation on Feb. 3 and ten new members were added to the sorority, discloses Vice President Thelda Strader.

Iolene Harding, Sybil May, Jill Dorsey, Barbara Taylor, Wanda Reed, Martha McNeil, Isabel Bradley, Marie Reese, Anita Sue McDougal, and Mary Kemper Hull are the new members.

Alpha Delta Epsilon Honors Howard Hess

Alpha Delta Epsilon, business fraternity, honored Howard Hess recently with a farewell party in the Colonial Dining Room.

Hess, a senior from Lewes, Del., completed his work here at the end of the first semester. Mr. and Mrs. Hess, she the former Joyce Florey, have left the campus. He had been an active member of ADE while a student here.

Jackets Furnish Final Opposition

Glenville State travels to Fairmont tomorrow night to meet the Fairmont State Falcons in a WV-IAC contest. This will be the first meeting of the two teams this season.

In two games last season, the Falcons came out victorious. The first game saw the Pioneers lose by five points, 80-75. The margin was eight points in the second as the Gee-Men went down, 85-77.

The Pioneers avenged two regular season defeats by clobbering the Fairmont men in the state tournament at Buckhannon in the quarter-finals, 91-77.

This year's Falcon team is much improved by the rebounding and scoring of big Harry Hall. Hall has been running neck and neck with Beckley's Skiles in the race for leading conference scorer and, in addition, is running in the top five in rebounding.

Poole, Hall Clash

Glenville's Rudy Poole will be the Pioneer equal to Hall in this game. Poole is also among the top rebounders and scorers and is considered a better field goal shooter than Hall.

The Pioneers round out the regular season Saturday, Feb. 15 when they are host to the West Virginia State Yellow Jackets.

The Jackets defeated the Pioneers in an earlier game this season by an 87-69 count at Institute. However, the Jackets have lost Percy Giles, because of academic failure. Giles was one of State's leading scorers. His total of 30 points against the White Wave was by far better than that of any other Jacket player.

In regular season play last year, the Gee-Men won one and lost one to the Statemen. The first game was won by State, 80-74, but the Pioneers came back to win the second 86-70. In the tournament, Glenville dropped the Jackets in the opening round, 81-75.

RUDY POOLE

TOM McPHERSON

BOB REYNOLDS

White Wave Wins Only Five of Last Eleven Contests; Team's Play Brought Up-To-Date Since Jan. 10 Meet

By EDWIN WARE

Coach Leland Byrd's Glenville State Pioneers now (at the time MERCURY went to press) have a conference record of eight wins against nine losses, with five of these victories coming since Jan. 10. Six games have been dropped by the Gee-Men in this same period. One of these six losses was the non-conference Camp Lejune game.

Alderson Broadbuss found the Pioneers a stubborn opponent on Jan. 10 as the Byrdmen came roaring back in the second half to make up a halftime deficit to tie the score as the final gun sounded and then continued the rally in an overtime to win by 97-95 margin. Rudy Poole garnered eight points in the three minute overtime while teammate Tom Burns scored four to give the White Wave the victory. Five Pioneers broke into the double figures column.

Marines Win

The Pioneers were host to the Camp Lejune Marines on Jan. 14 in

a game that saw the Gee-Men unable to sink a winning field goal in the final seconds. With only three seconds remaining in the contest, Glenville's Poole stepped to the free throw line with the score at 85-84 with the Marines in the driver's seat. Poole failed to convert the first of a one and one shot and the Marines notched another victory to their credit.

The White Wave took to the road on Jan. 16 and 18 in games with high scoring Tech and tough West Liberty. Tech's Golden Bears clobbered the Pioneers in a barrage of scoring in the second period. Final score was 127-80.

At West Liberty the Hilltoppers avenged an earlier defeat at the hands of the Pioneers by taking an 84-68 victory. Senior forward Bob Reynolds led the Pioneer attack in both the Tech and West Liberty games with 20 and 21 points.

Beat D-E

Glenville returned to the home court Jan. 21 to defeat the Davis-Elkins Senators 91-69. The Gee-Men held a 45-26 lead at halftime and increased the bulge to 22 points in the final canto. Poole led the White Wave with 20 points and Reynolds gathered 17.

Concord proved to be the next victim of the high-riding White

Wave as Glenville rolled to a 93-69 victory on the Glenville hardwood. Poole and Reynolds again led the the Glenville attack in both rebounding and scoring. Poole tallied 24 points and Reynolds followed closely with 22.

Revenge minded Alderson Broadbuss proved to be too much on Jan. 27 as the Battlers plunged to an 82-73 victory over the Pioneers. Reynolds took co-scoring honors with Huggins of A-B with a total of 25 points.

Tall, fast-moving Wesleyan moving in on the Gee-Men Jan. 29, came out the victor to continue their undefeated season in WV-IAC play. The Bobcats moved to a 46-28 lead at halftime and held on to the margin for a final score of 85-64. Poole of Glenville and Remley of Wesleyan took scoring laurels with 26 and 24 points respectively.

Beckley Bows

The Gee-Men passed the century mark at Oak Hill as they downed the Beckley Hawks 116- (Continued on Page 4)

WVIAC Tourney Begins On Feb. 18

Next week will witness the opening of the 1958 WVIAC Tournament at Buckhannon. The tournament begins Tuesday, Feb. 18, and ends Feb. 22. Drawings will be made next Sunday, Feb. 16.

Sixteen teams will participate in this year's playoff. Actually 17 teams are eligible but only 16 brackets exist in the tourney drawings; therefore one team must be eliminated.

There is a possibility of eliminating one team by having the two bottom conference teams, in standings, play previous to the opening of the tournament.

Athletic Manager Receives Injury

Don Brannon, GSC athletic manager for four years, was seriously injured Monday night, Feb. 3, in a sled riding accident.

According to reports from a Weston hospital to which Brannon was moved, vertebrates were damaged, but there was no apparent injury to the spinal cord.

Two other GSC students, Claude Walkup and Kidd Krauss, were also injured in the accident. The three men began their ride at the top of the hill in Northview. The sled traveled down hill toward Mineral Road. They failed to check their speed and plunged over an embankment onto U. S. Route 33-119.

Miss Jackson Is Mercury Editor; Butler, Marley Take Over Duties

Joyce Jackson, senior, will replace Connie Sams for this term as editor of the MERCURY. Miss Sams is doing her directed teaching at Glenville High School. Miss Jackson, a math and physical education student, is a veteran on the MERCURY staff. She has served as reporter, copyeditor, and news editor. News editor for this term will be Dorothy Butler, a sophomore with

fields in English and social studies. Miss Butler was associate news editor last term. Replacing Bonnie Gorrel as circulation manager is Sharon Marley, a sophomore business student. She and Bill Hinton were assistant sports editors last term.

Bill Deel, senior, continues his work as staff photographer. His fields are biological science and speech.

Boggs Is Business Manager
John Boggs, a sophomore from Glenville, will assume Jim White's duties as business manager. Boggs has been a reporter and sports editor for the MERCURY.

Another veteran, Edwin Ware, will continue as sports editor. Ware, a math major, is a sophomore.

Two new reporters are Rodney Busch, junior, and Leatrice Courtney, senior. Busch is the reporter for fraternities and drama; Courtney, home economics.

Byrd Belles Basketball

(Continued from Page 2)
cited that he looked, to be; he assured her that he had been calm, but later that night she found a fountain pen he had jammed into his coat-pocket; the top wasn't on the pen. That's calmness, she asks.

Mrs. Byrd has missed only one home game since she and her husband came to GSC. The next time you attend a Glenville State basketball game, look for Mrs. Byrd, Debby, and Becky. You'll see three pairs of dark brown eyes that watch their favorite team, the Pioneers. They'll also be watching their favorite coach, Mr. Leland Byrd, husband and father.

Pioneers outlasted the Mountain Lions 88-86. Glenville found themselves trailing by one point at the end of the first half, but a second half scoring spree by the Geemen proved too much for the men from Athens.

With a conference record of 8-8, the Pioneers moved to Salem with hopes of bettering the 500 mark in conference standings only to see the fired-up Bengals wipe out a 54-46 halftime lead to win 111-103. Salem tied the game at 69-69 then finally went ahead to stay at 96-95. Two Pioneers passed the 20 point mark, Poole gathering 34 and Reynolds added 24. Three Tigers passed the 20 point total.

they will observe and teach for the first term are first grade, Patricia Christian, Betty Jo Lewis, and Carol Morris; second grade, Patsy Lyon and Barbara Taylor.

Third grade, Wilma Ball; fourth grade, Mary Lee Kessinger and Nancy Henley; fifth grade, Robert Mullens, and sixth grade, Rosalene Gillespie and Rose Marie Gwinn. These schedules will be changed the second term to enable the student teachers to gain additional teaching experiences in different grades.

"We've Put a Speedometer on the Stars!"

INSIDE AN OBSERVATORY ATTACHED TO A LEADING UNIVERSITY

SOME ARE TRAVELLING 10 MILLION MILES AN HOUR!

WOW! PROFESSOR, HOW CAN YOU POSSIBLY TELL?

THIS SPECTROSCOPE ACTS LIKE A FILTER. IT SEPARATES THE LIGHT WAVES — TELLS US HOW FAST STARS ARE MOVING. OUR KNOWLEDGE OF SPACE DEPENDS TO A LARGE DEGREE ON THIS INFORMATION

THE FILTER ON A CIGARETTE IS IMPORTANT, TOO. THAT'S WHY I SMOKE VICEROYS. VICEROY GIVES YOU MORE OF WHAT YOU CHANGE TO A FILTER FOR!

YOU SEE, VICEROY HAS MORE THAN 20,000 FILTER TRAPS. THOUSANDS AND THOUSANDS MORE THAN OTHER LEADING BRANDS!

MORE TASTE, TOO. REALLY SMOOTH!

YES, VICEROY'S RICH, MELLOW TOBACCOS ARE SMOOTHED TO PERFECTION BY THE VICEROY FILTER!

Light One! Discover... **VICEROY GIVES YOU MORE OF WHAT YOU CHANGE TO A FILTER FOR!**
