Rural Development Conference Scheduled Today Students To Vote For Council Members April 15

Three Candidates Seek Presidency

By DOROTHY BUTLER

Student Council officers for the school year 1958-59 will be elected today by the student body. Polls will be open in the Union from 9:00 a.m. to 4:00 p.m., according to Paul Hughes, Student Council president. Thirteen candidates presented their platform speeches in an assembly last Thursday morning.

Running for president are Jim Millard, Ray Ellis, and Bob Eakins. Millard, from Charleston, favors the opening of Louis Bennett Lounge to GSC students and their parents for a comfortable place in which to visit and also the revision of freshmen rules. He would also maintain and improve Student Union facilities and give students a voice in the allocation of student activity fees.

Ellis's platform calls for the publication of the minutes of all Student Council meetings in the MERCURY, more publicity for campus elections, and the installation of phone booths in Kanawha Hall and Louise Bennett Hall.

Freshmen Rules Considered
Bob Eakins, a native of Spencer, is running on a platform which supports more week-end social activities, and delaying the beginning of freshmen rules for a week.

Larry Stanley and Jackie Millard are candidates for vice-president. Planks in Stanley's platform include integrating the price of a yearbook in the regular activity fees, including students on committees which discuss student problems, and carrying out periodic clean-ups. He also favors the re-working of the tennis court.

Miss Millard favors a revision of freshmen rules and a stronger inter-organizational council, made up of

CRAIG WILSON

Sears, Wilson, Somerville, Play Important Roles In College's Third Annual Program

By JOYCE JACKSON

Three years ago saw the birth of a new idea of the Glenville campus, an idea which, under the direction of Dean Delmer K. Somerville, has become concrete in the form of the Rural Development Conference.

Director Somerville, dean of Glenville State College, has played and is still playing a major role in the functioning of the conference, which has, in three years, survived, grown, and been the basis of plans of action which have led to the betterment of social, economic, and cultural conditions in the 17 county area which Glenville College serves.

The conference director is a graduate of Glenville State College with the class of 1936. He received his M.A. Degree from West Virginia University in 1939 and his Ed.D. Degree from Cornell University in 1952. The interest in and work which Dean

Somerville has done in the development of the rural area surrounding Glenville may be based upon his background in educational administration and rural sociology.

Dr. Somerville has experience in the Jackson County school system as teacher, principal, assistant superintendent, and superintendent. He has served as chairman of the Glenville College education department and has held his present position for three and a half years.

He is a member of the Methodist Church, the Rotary Club, the Kappa Delta Pi, the Phi Delta Kappa, the Kappa Sigma, and is a life member of the National Education Association.

Dr. Paul B. Sears, professor of conservation and chairman of Yale University's conservation program will give the keynote address for the conference.

An eminent American botanist and conservationist, Doctor Sears is a native of Ohio. He received his B.S. Degree from Ohio Wes-

leyan University in 1913, his M.A. Degree from the University of Nebraska in 1915, and his Ph.D. Degree from the University of Chicago in 1922.

Professor Sears is the author of several books. Among these are *Deserts on the March*, *This is our World*, *Life and Environment*, and *Charles Darwin*.

Giving the summary address of the conference will be Dr. Craig Wilson, assistant state superintendent of schools in West Virginia. This will include an analysis of the conference, its discussions and plans, along with an analysis of the apparent quality of the meeting.

A native of Charleston, Dr. Wilson received his B.S. Degree from East Tennessee State College in 1947, his M.S. Degree from the University of Tennessee in 1947, and his Ph.D. Degree from George Peabody College for Teachers in 1957.

(Continued on Page 2)

17 Counties To Participate

The third annual Rural Development Conference opens at 10 o'clock this morning in the Glenville State College auditorium. Area high school youth, in attending and participating in the conference, add a new touch to the three year old project. For the first time in the history of the conference, Glenville College students will play a major role in the meeting, by acting as resource persons in the various groups into which the conference is divided.

Purpose of the Rural Development Conference is to provide an opportunity for leaders of business, education, industry, agriculture, and the professions to meet along with the youth and to discuss and seek solutions to the cultural, economic, and social problems of the area served by Glenville State College.

The conference opens with Dr. Delmer K. Somerville, director, presiding. Highlighting the morning activities will be the keynote address by Dr. Paul B. Sears, professor of conservation and chairman of Yale University's conservation program.

Heflin Gives Review

Dr. Harry B. Heflin, president of Glenville State College, will appear on the morning program, giving a review of progress made during the past year in connection with the Rural Development Conference.

Another feature of the morning session will be the presentation of "thumbnail sketches" of progress in the various communities, moderated by C. H. Archer, coordinator of the West Virginia Continuing Program in Educational Leadership for the State Department of Education.

Walter C. Gumbel, soil conservationist
(Continued on Page 2)

ONE OF THE ABOVE CANDIDATES will be elected President of the Student Council for the school year 1958-59 by the student body today in the most important campus election. Seeking this office are, left to right, Ray Ellis, Glenville; Bob Eakins, Spencer; and Jim Millard, Charleston. They headed a thirteen candidate ballot presented to student vote. Results of the election will be published in the next issue of the MERCURY, April 30. (MERCURY photo by Stein)

Xi Beta Tau Plans Formal Initiation

Pledging ceremonies for the new Xi Beta Tau Sorority members are being planned and formal initiation is set for April 28, states Joyce Jackson, sorority president.

The new members attended Spring Rushing Parties held March 18 and 21 and a tea held on March 23.

Charmaine Gunnoe, Bonnie Norman, Dolores Hutton, Delores Stanvich, Carolyn Dotson, Sue Creasy, Marlou Locke, Susan Lockard, Patty Mace, Judy Garret and Betty Lou Sisk are the newly selected members.

Mrs. Floyd Miller will be the honored guest at a party given by the sorority on May 3. Mrs. Miller has served as sorority patroness for a number of years.

May 10 is the date set for the Xi Beta's Annual Senior Day Picnic to be held at Hershman's.

Baroque Trio Ends Lyceum Series With Vocal, Instrumental Program

By SHARON MARLEY

The Baroque Trio consisting of Patty Grossman, recorder; Conrad Seaman, tenor voice and recorder; and Homer Wickline, harpsichord, will present the final Lyceum Program of the year on Thursday, April 17, at 8:15 p.m.

Patty Grossman is a skillful player of the recorder, which is an

Archaic English word meaning to imitate the birds. It is an end-blown or fipple flute and is made in five sizes: soprano, alto, tenor, and bass.

Miss Grossman is a member of the faculty of the Laboratory School of Music of Chatham College in Pittsburgh, Pa. She is also a member of the music staff of the Idyllwild Arts Foundation of California, and a Lecturer in the Department of Music, History, and Literature of the University of Pittsburgh. This distinguished performer's method of recorder instruction was recently published by the Boxwood Press.

Seaman's singing has earned him such superlatives as "remarkable," "great skill," and "immaculate performance." His lyric tenor is particularly adaptable to the intricate demands of the Renaissance and Baroque song literature. He has

(Continued on Page 3)

Kappa Sigma Kappa Dance Ends Pledging

The Kappa Sigma Kappa fraternity concluded its pledge period Friday night with the annual Kappa Sigma Kappa Ball.

New members who joined KSK are Jerry Burner, Ray Boggs, Steve Ferguson, Dwain Wilcox, Ed Sweeney, Jim Fisher, Douglas Hupp, Philip Cottrill, Larry Marks, Sterl Dean, Paul Cochran, Okey Singleton, and Milton Wayne.

Today — On Trial

YOU STAND ACCUSED!

The story against you reads that you are unconcerned, that you are indifferent, that you are "so many people who care so little about so many things."

A postlude to this story is being written today — **RIGHT NOW** — in the Student Union at the Council polls. This postlude may be a confirmations of the above story, or it may be a contradiction of the charges against you. What we **SAY** will little affect the verdict, but what you **DO** will decide it.

—Joyce Jackson

GSC Is More!

State colleges to most people serve as an institution of academic nature and maintain an intellectual atmosphere of learning and knowledge. This is undoubtedly true; however, it is not true that this is the only service that a state college performs for the residents of a state.

Other services that are as equally important are use of college facilities as a center for area meetings, advisory services of the college staff on matters concerning state and community, research facilities, surveys for community resources, and many similar services that could and should be developed.

One service, not of an entirely academic nature, that Glenville State College has rendered during the past three years is in the form of the Rural Development Conference, which is taking place on campus today. Participants in this conference are here to study problems and goals of the area served by the college and to determine how the college is equipped to aid in solving these problems and in reaching goals.

There is little doubt that the problems that are presented before the conference members cannot be solved in one sitting; however, there must always be a starting off point, and ideas that were planted during previous conference meetings have already begun to grow and mature.

The MERCURY staff, speaking for the entire student body, welcomes members of the annual conference to the Glenville campus. Your interest in the college as a community-service center, as well as an academic center, will further the interest of those whom the college serves.

—Connie Sams

Young GOPs To Seek Recognition

GSC Young Republican Club has been organized on campus and has petitioned the Student Council for recognition. The club will be associated with the state and national organization.

Officers for the club are Robert Row, president, a sophomore from Junior; Harold Hudnall, vice president, sophomore and a resident of Rand; Gene Rowe, secretary, is from Sissonville, and is a sophomore; and James Jones, treasurer, is a sophomore.

Jones is also the president of the Gilmer County Young Republican Club.

Rural Development

(Continued from Page 1)

tionist for the Monongahela Power Company, will open the afternoon session, giving a review of the proposed Little Kanawha River drainage project.

At 2:00 p.m., the five groups will meet to discuss the problems confronting and projects undertaken by the different groups. These groups are agriculture, education, natural resources, business industrial, and human resources. Group leaders and college students who are acting as resource persons for each group are as follows: Agriculture: Discussion leader — John D. Lough, agricultural agent for the Baltimore and Ohio Railroad Company and college resource person — Delmas Keith; education: Discussion leader — Stark Wilmoth, superintendent of Randolph County schools, and college resource person — Rosalene Bragg Gillespie; human resources: Discussion leader — the Rev. Robert Gay, pastor of the Glenville Presbyterian Church, and college resource person — Connie Sams; natural resources: Discussion leader — Walter C. Gumbel, soil conservationist for the Monongahela Power Company, and college resource person — James Hannaman; business-industrial: Discussion leader — Associate Professor Stanley Hall, acting chairman of the social science division at Glenville, and resource person — Virginia Boggs Frymier.

Concluding the day-long meeting will be a banquet session in the Colonial Dining Hall, with Associate Professor Esmy Miller presiding. At the closing session, brief summaries of the discussions conducted by the groups will be given. H. Cliff Hamilton, supervisor of instruction for the State Department of Education, will lead this panel of group reports.

Wilson Presents Summary
Dr. Craig Wilson, assistant superintendent of Schools in West Virginia, will close out the conference with a summary address, which will include an analysis of the conference.

Theme for the conference, which has been carried throughout its three years of existence, is "The Role of Higher Education in Area Development." The conference seeks to determine the problems confronting Glenville College's 17 county service area, find solutions to these problems through educational media, and plan programs of action for the alleviation of these problems through cooperative effort of the college and people of the area.

This 17 county area which the conference serves includes the following: Barbour, Braxton, Calhoun, Clay, Doddridge, Gilmer, Jackson, Lewis, Nicholas, Pleasants, Pocahontas, Randolph, Ritchie, Roane, Tyler, Upshur, Webster, Wirt, and Wood.

Students Prepare Research Work For Presentation At Science Meeting

Eight Glenville State College students plan to present papers on their research work at the annual meeting of the W. Va. Academy of Science to be held this weekend at Morgantown, according to Dr. Max Ward chairman of science and mathematics.

Mark Stewart and Winetta Bowman will work together in giving a report on "The Effect of Gibberellins Acid on Plants." Iolene Harding will present a paper concerning "Amino Acid Determination of Specified Food Substances."

Eleanor Pinnell's report will have to do with "The Inhibitory Effect of Actidione on Yeasts and Fungi."

"Synthesis of Organic Solids by Rhizopus on Different Substrates" is the topic chosen by Gene Rowe. Jane Riddle and Gail Ratliff will cooperate in presenting a paper on the "Extent of Red Light Emission of Chlorophyll From Different Leaves in Hot Tetralin," and Helen Hypes will report on the "Separation and Identification of Saccharides in Plants."

These six reports will be presented to the W. Va. Collegiate Academy of Science, an affiliate of the W. Va. Academy of Science.

The only reports to be given by students from other colleges are "Interesting Developments in the History of Mathematics" by Patricia Woodruff, Salem College; and "Some Studies on the Clotting of Blood in the Absence of Oxygen" by Albert J. Bazo, West Liberty State College.

Meet At Morgantown
April 17, 18 and 19 are the dates set for the 33rd annual meeting of the Science Academy scheduled to be held at the new Medical Center, West Virginia University.

Also attending the meeting from Glenville will be Dr. Ward who is secretary of the W. Va. Academy and advisor of the Collegiate Science Academy. Mrs. Phyllis June Coleman is president of the Collegiate Academy of Science and Gene Rowe is secretary-treasurer.

Participating in the Senior Academy will be Mr. Herman Adams, assistant professor of biology. Dr. Byron Turner, chemistry professor, and John White, assistant professor of mathematics, also plan to attend the meeting.

Faculty Presents Assembly Program

Members of the faculty will present the assembly on April 17, at 10:10 a.m., states Assembly Chairman Dr. James G. Jones.

According to Dr. Max Ward, chairman of the program committee, the faculty will be well represented in a variety program.

Ermah Damewood Nineteen Students Contributes Book Enroll At Glenville

Miss Ermah Damewood, Gilmer County health nurse, has presented Glenville State College with a complimentary copy of "A Half-Century of Nursing in West Virginia," according to President Harry B. Heflin.

This publication, made available through the Florence Nightingale District No. 4 of the W. Va. Nurses Association, has been placed in the Robert F. Kidd Library.

Written by Donovan H. Bond, associate professor of journalism at W. Va. University, this book gives the historical background of professional nursing associations and their program in this state since 1907.

Miss Wolfe Places Student Teachers

Five additional students have been placed in Glenville Public Schools for their directed teaching this term according to Miss Eloise Wolfe, supervisor of elementary education.

Clyde Porter, Jr., Ruby Taylor Harbo, Rosemary Hammond, Jetta Sue James, and Marilyn Smith will all be doing their student teaching at Glenville this term.

Teaching in Miss Matthew's kindergarten for the past week have been Mrs. Mary Moyers and Roberta Green. Different students will be teaching in the kindergarten for one week as part of the student teaching program, according to Miss Wolfe.

Nineteen new students have enrolled at Glenville State College for the final term of the 1957-58 school year, according to Registrar Brown Trussler.

These 19 students include Dollie McLaughlin Acree, a junior from Sutton; Joyce Elaine Bourn, a senior from Rosedale; Donald Brannon, a senior from Auburn; Bayword Butler, a special student from Exchange; Juanite Rexroad Dawson, a senior from Mahone; Rosemary Hammond, a senior from Webster Springs; Louis Franklin Hanifan, a junior from Glenville; Shelia Yates Harbin, a freshman from Parkersburg; Ruby Taylor Harbo, a senior from Richwood; and Zachariah Johnson, a junior from Marlinton.

Also included in the list of new students are Beulah Jones, a special student from Bluefield; Judy Kennedy, a senior from St. Marys; Mary Lee Massey, a senior from Sand Fork; Ruby Campbell Penley, a senior from Asheville, North Carolina; Clyde Porter, Jr., a senior from Ruffie; Mable Kraft Pritt, a sophomore from Orlando; Daniel Sams, a senior from Parkersburg; Jackie Vernon Straley, a freshman from Copen; and Paul Takach, a sophomore from Parkersburg.

Junior comprehensives in business education will be given the first week in May. Anyone who is planning to take the exams please see Mrs. Genevieve Butcher, assistant professor in business education.

Can we conceive what humanity would be if it did not know the flowers?

Annual Play Day Set for May 10th

Virginia Davis, president of WAA has announced plans for a high school play day to be held on campus May 10. Registration will begin at 9:00 a.m. Activities will start at 10:10 a.m. and end at 3:00 p.m.

Thirteen high schools are being invited to this event. Six girls will represent each high school. Those schools invited to attend are Rainelle, St. Marys, Spencer, Glenville, Sand Fork, Troy, Normantown, Tanner, Burnsville, Weston, Elizabeth, Sutton, and Gassaway.

Nancy Gillispie and Flora Dyer are co-chairmen of the planning committee for the play day.

Dorothy Butler's team is heading the winning column in softball. Miss Butler has a 2-0 record. The teams of Delores Stanevich and Hester Reed have been batted down by Butler's team in play thus far.

Golf Squad Preps For Match Sat.

Golf Coach Robert Higgins indicates that at least five golfers will be available for Saturday's match with Davis Elkins at Elkins.

Two lettermen from last years golf team are participating in this seasons schedule. These are Jack Campbell of Ripley and Jack Reed of Glenville. John Fletcher, Parkersburg; Gerald Kress, Parkersburg; and Basil Harrah round out the golf team members. Coach Higgins expressed the hope that additional men would report for the team in the near future.

Schedule changes involve cancellations by West Virginia State

Glenville Faces Salem, W. Va. Tech In Diamond Play Here This Week

By EDWIN WARE

You cannot play baseball in the mud and mud is precisely what Coach Carlos Ratliff encountered on the baseball diamond at Rohrbough Field when he began the task of molding the 1958 Glenville State baseball team.

Coach Ratliff is faced with the task of replacing the entire infield. However, the remaining positions apparently will be manned by men returning from last years starting nine.

Two 1957 moundsmen will be

back to hurl for the Pioneers. These men are Kenny Wright and Paul McKown. At least four other men have reported for the job of pitcher.

In the outfield, Dave Mace, Steve Cooper and Ray Ellis will be snagging flies for the Gee-Men.

Cook Catches

Returning to wear the paraphernalia behind the plate is George Cook. Cook is recognized as one of the top catchers in the conference and his baseball knowledge will be of extreme value to Coach Ratliff's aggregation.

Ratliff reports that at least 14 men are available for infield duty. This group is made up mainly of freshmen reporting for their first season of college baseball.

The Pioneers were scheduled to meet the West Virginia Wesleyan Bobcats at Buckhannon last Friday. Results of this contest were not available when the MERCURY went to press.

Two home games are scheduled for this week. Friday, April 18 will see the Gee-Men tangle with the Salem Tigers and then play host to West Virginia Tech the following day.

The Pioneers lunge into the thick of the schedule during the weeks of April 21 and 29. Six games are on the agenda. Davis Elkins furnishes the opposition on April 22; Alderson Broadbuss comes to Glenville April 24; the Pioneers journey to Athens to meet the Concord Mountain Lions on April 26; Wesleyan appears at Rohrbough Field on April 29; Salem is the sight of the Glenville-Salem game on May 2; and Concord provides the opposition on May 3.

Science Bolsters Beanstalk Story

Unlike Jack of "Jack-and-the-Beanstalk" fame, Miss Winnetta Bowman has assisted nature in the production of a tall beanstalk.

Miss Bowman, a senior from Weston, planted the beans in sand on Feb. 22 and has been feeding them with a nutrient solution. Two of the four original plants were sprayed with gibberellic acid. The treated plant which is now so tall grew about 2.4 inches a day, while the untreated plants grew only 2 inches a day.

Jack probably never heard of gibberellic acid. Until recently no one had. The Japanese, studying a fungus which attacked rice and made it tall but unproductive discovered this acid.

According to Miss Bowman, who carried out this bit of research for her Research Problems Class, the plants treated with gibberellic acid were 41 inches and 21 inches tall on April 1 while the untreated ones were only 15½ and 9 inches tall.

Miss Bowman will take the report of this project to the W. Va. Collegiate Academy of Science meeting to be held April 17, 18, 19 at the new Medical Center, West Virginia University, Morgantown.

An additional note: Miss Bowman also sprayed some corn plants with gibberellic acid. They died.

Bessie Bell Named IRC Life Member

Miss Bessie B. Bell, former Glenville State history instructor, was made an honorary life member of the Glenville State College International Relations Club at its meeting March 13, announces Dorothy Butler, IRC president.

Miss Bell, who taught at GSC until her retirement last year, became IRC adviser in 1928 and held this position until her retirement. She is the first person the club has conferred this honor upon.

Next regular club meeting is set for April 10, Room 207A.

A nation's growth from sea to sea Stirrs in his heart who plants a tree.

Lyceum Series Ends

(Continued from Page 1)

sung extensively in opera and oratorio, and he also plays the recorder. He is a Lecturer in the Department of Music History and Literature of the University of Pittsburgh.

Wickline has won such plaudits as "brilliant" and "admirable" for his performance at the keyboard of his Florentine harpsichord. The harpsichord was built by Vincenzo Sodi of Florence, Italy in 1780. It was one manual with two sets of eight foot strings, and plectra of crow-quill, leather and buff. The buff stop is known as "Cembalo Angelica" or angel's chimes. The painting and case decorations are by an unknown 18th century painter.

He is also a noted organist, having concertized widely in the United States. His skill at the piano and the clavichord distinguishes him further as a master of every type of keyboard instrument known to music history. He is a composer and teacher, and a Lecturer in the Department of Music History and Literature of the University of Pittsburgh.

The richness and variety of the trio's program is remarkable, and such happiness as they find in shaking the dust of centuries from an ancient work is directly communicated to their audience. They made their New York debut at Town Hall in 1955, and have since had great success in Washington, Pittsburgh, Richmond, Toledo and other musical centers.

Recently they completed work on a filmed series called "Music and the Renaissance" for the National Educational Television and Radio Center. They were also recently honored by the University of Pittsburgh where they are now in residence as members of the Collegium Musicum.
