## A Parting Word

THE NEXT ISSUE of the MERCURY, May 15, will be the third annual Literary Issue. Poems, short stories and cartoons have been selected, and Artist James Rogers has prepared appropriate illustrations. This MERCURY, May 8, is the final news issue of the current year.

WE AGREE WITH Thomas Jefferson: "The press is the best instrument for enlightening the mind of man, and improving him as a rational, moral, and social being."

THERE HAVE BEEN times during the year that the press at Glenville State College has served its purpose of enlightening its readers; there have been other times that it has fallen short in this regard.

THERE HAVE BEEN times when reporters, photographers, editors, adviser and printer have erred. Campus channels of communication have sometimes lagged, lapsed and gone down completely. These were the times that we needed your understanding. For that understanding we thank you.

## The Missing Link

WHETHER SOME STUDENTS are aware of it or not, there exists at Glenville State College a chain of command. Certain links in this chain appear to be vague and confused, and one is missing altogether.

THE MISSING LINK lies between the students and the administration. Often times an order or a regulation comes down to the students and is misunderstood by the students.

IF THE STUDENTS were supplied with some means to express their views on regulations and to listen to the reasoning behind these rules, the missing link would be supplied.

WHY NOT SET up a board, consisting of the President of the College, the Dean of the College, the Dean of Student Affairs and the Dean of Women, who together with four students, duly elected by the student body, could sit down once a month and "hash out" some problems. Surely we can spare one or two hours a month to iron out some of the bad feelings and misunderstandings here.

WE FEEL THAT if such a board would be created, the student body should keep in mind that the four students elected should be outspoken, intelligent and reasoning students, while the administrative side of the board should remember that these students represent the student body and rules should be flexible enough to include their points of view.

THE RELATIONSHIP HERE at Glenville is that of a circle in regard to rules and regulations. The proposed board, while logically unable to break this circle immediately could at least make a start toward weakening this vicious circle.

SOMETHING MUST BE done. For without the missing link, we will continue to misunderstand.

## An Opportunity for All

FINE ARTS FESTIVAL and other planned activities have recently given students and faculty an opportunity to see, hear and participate in cultural activities far beyond the "usual" here at Glenville State College.

THOSE WHO WERE responsible for arranging these activities and seeing that they were a part of the campus scene are to be commended. Those who failed to attend these exhibits, performances, discussions and programs are the losers.

CULTURAL ACTIVITIES should begin to be, if they are not already, a part of our tradition. One should not have to develop a pseudo-sophistication in order to enjoy, appreciate and discriminate. The college students should develop a "feeling" for recognizing what is good over what is bad.

FINE ARTS FESTIVAL brought to us the good—the superior. We believe that a college should be dedicated to projecting the best. Certainly the college can not be dedicated to giving the student what he "wants." If a program is not overwhelmingly supported, one should not conclude that the program is poor. The fault lies somewhere else.

### Musical Play Future in Doubt

At the time the MERCURY went to press, the use of the auditorium was uncertain for the production of the short musical play "Down in the Valley."

Contractors are "expected" to complete work soon on the auditorium stage and other interior finishings. Maintenance men can then clear the floor space and set up chairs for this one production.

The music score for "Down in the Valley" is based on American folk songs. The operetta is planned as a special Centennial production.
