### 'RICHARD III' Nativity Depicted on Canvas IS NEXT FILM **Choir Presents Biblical**

By HELEN CUNNINGHAM

Members of the foreign film society will be beginning the new year with a touch of Shake speare. Alpha Psi Omega is bringing the dark history of bringing the dark history or a wicked king, an interwoven pat-tern of literature, history, and legend to exciting life on the screen in Laurence Olivier pro-duction of Shakespeare's "Richduction of Shakespeare's ard III."

Producer-director-star Laurence Olivier, accompanied by such Brit-ish theatre names as John Gielgud, producer of Richard Burton's gud, producer of Richard Burton's recent "Hamlet,' Clair Bloom, Ralph Richardson, Alec Clunes, Cedric Hardwicke, Laurence Nai-smith, Stanley Baker, Norman Woodland, Mary Kerridge, Pamela Brown, Helen Hayes, John Laurie, and Edmund Knight set out to create "the bact tothe sinture that create "the bast-acted picture that has ever been produced."

In this film are pageantry and social portraiture, all the politi-cal elements that made possible a hunchbacked king's career of brutality and crime in medieval England England

England. Here is soaring loveliness of speech, imagery, costume, and setting. Above all, here is the genius of Shakespeare interpre-ted by the most magnificent cast of actors ever assembled for a film, directed by the most superb Shakespearean of our generation.

The "Saturday Review" said of this work: "a film that con-Stantly intrigues the eye and de-lights the ear," and the "New York Times": "Tremendous, ... done in colors of which a Rem-brandt might be proud."

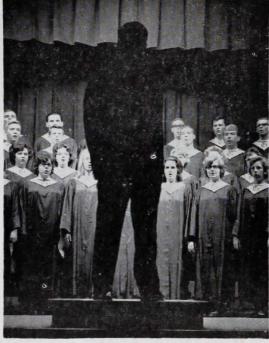

Rudolph Arnheim, Professor of psychology at Sarah Lawrence College, says: "The film should be seen by every person to whom Shakespeare is alive or should be made alive;" and Mrs. Dean Gray Edwards, Chairman of Mobray Edwards, Chairman of Mo-tion Pictures, National Council of Women, 'says: "This is a must not only for students of Shake-speare but for those who like an exciting historical tale filmed with superlative competence!"

This film masterpiece of hu-man cunning, a revelation of poe-tic statement, a "tour de force" nic statement, a "tour de force" of dynamic production, has re-ceived three awards for direct-ing, acting and production from the British Film Academy; the Silver Bear from the Berlin In-ternational Film Festival; the Golden Laurel to Laurence Oli-vier for best direction from the Edinburgh Film Edinburgh Film Festival; and has been named one of the five best foreign films of the year by
