The community school is a program of using the school as a community center to serve the whole community, not just the children. For example, the school may be used for evening classes in adult education, crafts, dancing or swimming.

At the dinner Dr. Totten, Director of Graduate Study in Community Education, will speak on "The Role of Higher Education in Community Development." Registration for the conference will take place the following morning at 9:30.

Following two years of military service as a commissioned officer in the Royal Artillery, he returned to Sheffield University for training as a schoolmaster and was awarded a M.A. degree for his contribution toward interpreting the politico-educational scene at the turn of the century. He taught English and French in a number of schools and became responsible for the teaching of English in the Sheffield College of Commerce and Technology.

For about eight years Brennan has been involved in the professional training of teachers—first as Lecturer in Education in the Department of Teacher Training at the Bournemouth and Poole College of Art. Brennan has recently been awarded the degree of Master of Art of the University of Cambridge.

# It Shall Be So

To the Editor of "The Glenville Mercury:"

It's not what other people think of you that makes you happy or unhappy. It's what you think of yourself. Most of the time we are not aware of what we think about ourselves because we tend to project these feelings on the world around us. The young man with difficulties at school never defines himself in terms of the splendid potential provided by his high I.Q.; he sees himself as constantly threatened and misunderstood by his professors. The young woman who expects rejection withdraws from "the flesh market" of college mixers, says the academic work is overly demanding of her time, that boys are all the same and just want one thing, blind dates are unnatural, her college is isolated—and then she proceeds to find other girls who think and feel the same way so that they can sit and cluck together. The lonely man or woman of any age who complains about people is essentially justifying being alone.

All this is a way of saying that we act out what we believe we are. There are winners and there are losers, and very often the difference is not one of talent but one of beliefs in one's talent. A beggar does not think of getting up and going to work. A bully does not think of adopting the cause of the underdog. A bully bullies. In exactly the same way, winners win and losers lose.

It is hard for most of us to classify ourselves distinctly as winners or losers. Our self-image is not that clear cut; besides, most of us fall into that large area between these extremes. But, even within these extremes, it is important to recognize that not only is the color of our lives strongly influenced by the image we have of ourselves, but so is achievement itself. The person who thinks poorly of himself expects others to share this opinion, and often unwittingly invites their rejection by disliking them in advance. The person who thinks well of himself acts accordingly.

### Government To Cut 1969-70 Allotment

The Federal Government has decreased the amount of funds which the Glenville State College Financial Aid Office should have received for the school year, 1969-70. Consequently, there will not be as many students receiving financial aid next year as there have been in the past.

Listed below are the number and type of scholarships that will be given to students and the amount of money that each scholarship fund will have to divide among the number given: 29 West Virginia Board of Education Scholarships which will be given mostly to freshmen—\$4,350; 46 Claude Worthington Benedum Scholarships—\$9,200; 19 John C. Shaw Scholarships—\$2,850. Also, \$35,000 will be provided for the National Defense Loans, \$76,837 for the Work-Study Program, and \$105,000 for the Educational Opportunity Grants.

However, in order to help students who have previously received aid and will not be receiving aid for the next year, a United Student Aid Fund Loan for the amount of \$25,000 has been established. Through this loan, students will be able to borrow money from various banks.

Mr. Robert Smith

All students who plan to do directed teaching either first or second semester of the 1969-70 school year should attend the meeting on April 29, at 3:30 p.m. in the auditorium. Assignments will be discussed at this time.

Cont. from Page 1

The topic "Young People in Britain," will consist of a contrast between the situation today and the era of the 30's.

"English Schools Today," will concern the situation in 1945. Also to be discussed under this topic is the variety of provision, especially at the secondary stage. Brennan's discussion will also be concerned with the social philosophy underlying this provision and the swing from elitism to egalitarianism in the past years: how much this is to be welcomed and a consideration of the possible dangers, and how far these concepts apply to the other stages, primary and higher education.
