

# The Glenville Mercury

Volume XLIII, Number 31

Glenville State College, Glenville, West Virginia

Monday, July 10, 1972

## R. D. Arnold To Replace R. Gainer As Director

Robert D. Arnold has been named to succeed Robert K. Gainer as Director of Alumni Affairs. Gainer will remain at GSC as Administrative Assistant to College President D. Banks Wilburn.

Arnold graduated from Glenville in 1951 then went on to George Peabody College in Nashville, Tenn. where he received his master's degree in psychology. Arnold is presently publisher of the *Glenville Democrat*. He will begin his duties as part-time Alumni Director later this summer.

Raising funds for various worthwhile projects on campus will be another goal of Arnold. He specified that alumni-sponsored scholarships will be one of these projects.

Mr. Robert Arnold  
Alumni Director

## Dorothy De Looft, R.N., Becomes Gilmer Nurse

Through the National Health Service Corporation Gilmer County Medical Association obtained a Registered Nurse to work at the Health center on Walnut Street. Her name is Miss Dorothy De Looft originally of Grand Rapids, Michigan. Miss De Looft received her nursing degree at the Mercy Central School of Nursing in Grand Rapids and a Master of Arts degree in Maternal and Child Health from the University of Chicago.

Miss De Looft spent ten years working in Asia and Africa in the service of the U.S. Public Health Service department of the U.S. Government. After working overseas, Miss De Looft returned to San Francisco, California to become Associate director of nursing for the U.S. Public Health Service.

When asked the reason for coming to Glenville, Miss De Looft stated that she had worked in large cities most of her career and she wanted to live and work in a rural area. The National Health Service Corps offered several such areas to Miss De Looft and she chose Glenville due to its rural atmosphere. Miss De Looft says she likes the area 'just fine' and looks forward to working in the area.

## Consumer Econ. Workshop Is Home Economics 450

A consumer economics workshop has been held in the Pioneer Center ballroom from June 19 - July 7 daily 1 - 4 p.m. for the purpose of educating the teachers of the disadvantaged. The class was offered on both the graduate and undergraduate level and the title of the course is Home Economics 450.

To be eligible for the stipend of \$75 per week each student must have a contract for 1972-73 in a vocational program in the following categories: vocational home economics, vocational agriculture, distributive education, and business education.

Mrs. Lillian Chaddock, associate professor of Vocational Home Economics and Mr. Howard Warren, assistant professor in Business Education are co-teaching the course for the purpose of: (1) helping teachers analyze and interpret economic concepts as they relate to low income consumers, (2) helping teachers plan meaningful programs for students who are economically disadvantaged, (3) focusing this workshop on the sharpening of consumer skills in satisfying wants through the development of an awareness of alternatives made available to the consumer and (4) to help

teachers become more knowledgeable of subject matter content for a consumer and homemaking program.

Guest speakers for the workshop were Miss Catherine Downs, Consumer Specialist, Bureau of Product Safety a division of the Food and Drug Administration, Mrs. Mary Merritt, Division of Consumer Protection, West Virginia Department of Labor, and Mrs. Camille Stuart, a member of the Consumer Association of West Virginia.

Miss Downs, a 1971 Glenville State College Vocational Home Economics graduate spoke to the group on "Safety of Children's Toys." Mrs. Merritt reported on investigations of products sold in West Virginia dealing with complaints from consumers concerning weights and measures. Mrs. Stuart reported on pending legislation dealing with the need for consumer education of the disadvantaged.

One of the classes primary objectives is to develop curriculum to be used by the participants in the schools where they are employed. This class enables the participants to qualify for federal funds to carry out consumer education courses in their respective communities.

## Gilmer Co. Has New Doc., Nurse

The people of Gilmer Co. now have access to a full-time medical physician. The new M.D. is Dr. Barry Grosskopf. He has completed medical school at the University of Miami and his internship at Virginia Mason Hospital, Seattle, Washington. Dr. Grosskopf came to the Gilmer area as a result of the U.S. Public Health Service program which was authorized by President Nixon in 1970. He signed up for the Gilmer area a year before the program was passed by Congress.

The doctor came to Glenville on Jan. 18, 1972. In the beginning, most of his medical practice was administered from a black bag. Since then a clinic has been established on Walnut St. in Glenville. All of this has been an effort by the doctor since he has received no federal or state support for his practice.

Dr. Grosskopf is accompanied by his nurse, Miss Dorothy De Looft. Both contribute many hours each week to the 7,782 people in the Glenville, Stumptown, Cedarville and Sand Fork areas. In addition to running the clinic they also give emergency medical care in the evenings and make house calls.

When asked about his plans for the future, the doctor stated that he is interested in doing his residency work soon. He feels that private practice is a drag and is more concerned with working where his help is most needed.

## N.T.E. Examination Set For August 15, 1972

Persons completing the requirements for a degree in August, 1972, and who have not previously taken the National Teachers Examination must do so on July 15, 1972. Such persons must have approval of the Dean of the College. These students should have registered for the examination on July 15, 1972.

The National Teachers Examination will begin at 8:00 A.M. Students taking the examination must report to the gymnasium at this time with their ticket.

## Ripley Arts, Crafts Fair Considered "Successful"

Paul Latos demonstrated pottery-making at the Arts and Crafts Fair at Cedar Lakes, June 30-July 4. He had a very successful pottery exhibit in the GSC booth this year. He sold more than \$300 in pottery. Craftsmen and other interested people came in great numbers in spite of heavy rains. The damp weather did not dampen the buyers' spirits. Paul is presently in Cedar Point, Ohio, and will demonstrate pottery-making all summer.

Mr. Charles C. Scott, Chairman of the Art Dept., states that instead of maintaining the College booth in the future, each artist or craftsman will be accepted on individual merit. He will be glad to assist any students who would like to apply for apprenticeship at the Arts and Crafts Fair next year. Training will be available in pottery, weaving, woodcarving, wood turning, drawing, painting, print-making, blacksmithing, and foundry work. Approved candidates may receive expense-paid instruction with master craftsmen for the five days of the fair. There were 27 apprentices this year.

Mr. David Gillespie

## Frank Pfaff Named University Fellow

Frank Pfaff of Beltsville, Md. has been appointed a University Fellow at American University in Washington, D.C. He is a 1971 graduate of GSC majoring in English 7-12 and social studies 7-9. He then entered the program at Am. U. leading to a Ph. D. in English.

When appointed, Pfaff was one of eight students who were named University Fellows. Among the eight students, six have MA degrees from such universities as Harvard, Amherst, University of Va., and University of Md. According to Frank, competition in classes was very keen. He said that in the first two months, he had many misgivings and doubted that he could meet this competition.

At the end of the first semester Pfaff obtained a 4.0 grade average and continued his performance by again attaining a 4.0 for the second semester. He is the only student among the eight to have a 4.0 average for the first year.

Next year as part of the program for a Ph.D., Pfaff will be teaching classes in Western World Literature, which is similar to English 430 at GSC. This experimental program leading to the doctorate combines literary research and university teaching under supervision.

When asked about his undergraduate preparation, Pfaff said the experience that proved most valuable to him in his study was the literary courses of close reading and analysis. He also stated that the methods of explanation de texte helped him, not only in his interpretation, in class but also proved beneficial in writing papers.

## Mr. David Gillespie Edits Confrontation

After two years of being a consultant, Mr. David Gillespie has become the editor of *Confrontation*, a publication dealing basically with book reviews and literary criticism. Mr. Gillespie is conscientious and dedicated to his field and has greatly improved our library since becoming head librarian. The literary paper, *Confrontation* became a reality in 1970 due to the joint effort of Mr. Gillespie and Mr. Alan Heath, a member of R.F. K. Library staff at that time. Mr. Gillespie was very enthusiastic about the idea of the literary publication and strived for its success. The associate editors Carl A. Kerr, a member of the Language Arts Department and B. Blake Breitenherst, Jr., Pastor of the Glenville Presbyterian church, feel that the editorship is in very capable hands.

Mr. Gillespie's interest in the students is shown by his request to any student interested in writing reviews, articles, poetry, or any type of artwork that will add variety to the paper. Please contact Mr. Gillespie at any time if you feel you have any contributions to make.

*Confrontation* has a new look as well as a new editor with the summer issue. Mr. Frank Puskas, a member of the Art Department, has designed a new masthead for the paper giving it new depth and perception. Charles Scott and Alan Heath have also contributed to the artwork that is displayed throughout the paper.

Anyone wishing to obtain a copy of the paper, may find one at the circulation desk at the library.

The swimming pool is open daily from 3:00 to 4:00 Monday through Thursday, and from 7:00 to 8:00 on Tuesday and Thursday evenings.

...

Robert K. Gainer, Director of Alumni Affairs, has stated that two movies will be shown on campus during the summer school session.

Spinning is one of the many activities at the annual Arts and Crafts fair.

## Let's Swing Free!

First of all, it's just what this school needs. Its part of the 'Keep Glenville Beautiful' campaign and it shows typical Glenville State College planning and administration. On the lawn in front of stately, picturesque Clark Hall, right next to the relatively new front to Louis Bennett Hall, and within eyesight of Victorian Verona Mapel with its flat lawn and shady trees, stands GSC's number one eyesore and symbol of what seems to be the opinion of what Glenville students deserve: locked and chained swingsets.

When the swingset was first erected in front of the building most people understood that it was for the kindergarten children in classes conducted by GSC. However it detracts from the scenic beauty of the campus, most knew it served (supposedly) some useful purpose, and it also could provide something for the undergraduate student to do on a lazy Friday afternoon. Here, it is not especially necessary to add, though the temptation is great, that it is a sad state of college and town affairs when a swingset is looked forward to on a college campus.

However, the swingset's two prime purposes soon saw their demises. First of all, the thing was locked and chained, to keep all of the 'big kids' off, and to reserve it for the kindergarten age students. Then, some august, venerable person in the department of education and psychology apparently decided that the swing set and recreational equipment was much too large for preschool age children.

Now, we not only have a swingset as dubious asset to the scenery of our venerable institution of higher learning, but we have one that is also totally useless in any utilitarian sense. It cannot be used by preschoolers, who might fall off and break their poor pliable bones, and it cannot be used by the Glenville State College Intensely Interested, Interested And Excited Student Body. Perhaps the reason that the swingset is not unchained is because the great nebulous 'they' (on whom everybody blames everything) is afraid that, if the average GSC student has the desire to swing on a swingset like a four-year-old then he also has the mental acuity of a four year old, and may try to steal it.

-Ruth Swatzyna  
Editor-in-Chief

## Alpha Sigma Alpha Sorority Compiles 2.78 Average For Spring Semester

Mrs. Jean S. Wright, Dean of Women has announced that Alpha Sigma Alpha has the highest sorority grade point average for the spring semester, 1972, with a 2.67. Sigma Sigma Sigma had the second highest average of 2.57. Rho Alpha Chi placed third with a 2.45 followed by Delta Zeta with 2.35.

Alpha Sigma Alpha members achieving a 3.00 or better were Phyllis Barnhart, Jo Ellen Conley, Germaine Cox, Barbara Groves, and Barbara Southers.

Members of Sigma Sigma Sigma with a 3.00 or better were Margaret

Ball, Susan Chapman, Melanie Hess, Marcia Hoffman, Judy Jordan, Karen Price, Diane White, Mary Wilson and Avelae McElwain.

The Rho Alpha Chi member to achieve a 3.00 or better was Judy Ball. Members of Delta Zeta with a 3.00 or better were Kay Woody Bunton, Cheryl Chaddock, Pam Grey-nolds, Paulette Jackson, Judy Meads and Patsy Reeves.

The women's overall grade point average for the spring semester was 2.65 while the overall sorority average was 2.51.

## R. Swatzyna Named Publication Editor

The editor of the Mercury for the summer session is Ruth Swatzyna an English major from Beckley. Swatzyna has previously served as reporter and also as feature editor for the Mercury.

Vickie Ratliff of Charleston is news editor; Mike Rust of Elkview is sports editor. Charles White of Glenville is photographer; Rick Waller of Elkview is circulation and advertising manager; Jo Conley of Ravenswood and Kim Jones of Glenville are IBM operators; Sandy Roberts of Stump-ton is typist.

Reporters for the summer are: James A. Bleigh of Flatwoods, James Dorsey of Pinch, John Hart of Clendenin, James Kingsbury of Grantsville, Jacquelin Morton of Weirton, David Pethel of Hundred, Thomas Pritt of Beverly, Vickie Ratliff of Charleston, Londa Rigney of Parsons and Donetta Terry of Ansted. Mrs. Yvonne King is advisor.

The staff will publish five papers during the months of June, July, and August.

## TEACHERS' AIDES SET REGIONAL WORKSHOP

Summer workshop for teachers' aides will be conducted at Women's Hall July 10 through 28. Director of Region IV, Mr. William H. Given, and instructor, Mr. Joe Hickman, will offer a three-week course of in-service training in the following general areas: child development, audio-visual techniques, resource centers, basic subject matter and materials, and elementary school procedures.

Region IV and Region VI include 14 aides in West Virginia. The program is operated through the State Department of Education. Because of their training, the aides, known as para-professionals, are more able to assist the classroom teachers and to give some instruction with their supervision.

## Library Acquires New Business Books

The Reference section of the Robert F. Kidd Library has recently acquired four of the services of Commerce Clearing House, Inc.; namely, The Standard Federal Tax Reporter, Tax Court Reporter, Federal Excise Tax Reporter and State Tax Reporter-West Virginia.

The services are four of a wide range of tax and business services offered by CCH.

Both laymen and experts in the fields of business and law will find the Reporter helpful to their needs. With each of the services is an explanation of its use and scope. In the Index volume is a detailed explanation of its use, of great assistance in finding material in the Reporter. This index volume also includes, along with the topical index, supplementary information and tables, as well as a glossary of top terms.

The Federal Tax Reporter covers all areas relating to the Internal Revenue Code and its developments. Such areas as Individual Income Tax and Federal Estate Tax are covered in detail.

Federal Excise Tax Reporter relates mainly to taxes imposed on goods and services. Liquor and tobacco taxes fall into this category.

The West Virginia Tax Reporter is one of 50 state tax services produced by CCH, and covers all facets of West Virginia state tax law.

The Court Reporter will keep one up-to-date on the decisions of tax courts, along with petitions who have filed with the courts.

All services feature topical divisions headed up by heavy guide cards with plastic tabs for easy location of material.

Shown at Press Night is the summer Mercury staff with Editor, Ruth M. Swatzyna seated in the center slot.

## Psychological Effects Of Marijuana Noted

The Mercury is running a serial in the summer issues on the current topic of marijuana. The information below comes from the Federal Source Book, published by the National Clearing-house For Drug Abuse Information.

The psychological effects of marijuana are variable. They include distortions of hearing, vision and sense of time. Thought becomes dream-like. The belief that one is thinking better is not unusual. Performance may be hampered or unchanged. Illusions (misinterpretation of sensations) are often reported, but hallucination (experiencing nonexistent sensations) and delusions (false beliefs) are rare. Unfounded suspicion may occur, and this may be accompanied by anxiety. More often the feeling is one of a passive euphoria or 'high.' The individual tends to withdraw into himself. Occasionally, uncontrollable laughter or crying may occur.

Anxiety reactions and panic states have been noted. Accidents have occurred due to impaired judgment and time-space distortions. The user, especially if he is inexperienced, may become excessively suspicious of people and take action that leads to injury. A toxic psychosis consisting of mental confusion, loss of contact with reality, and memory disturbances has been recorded.

The effects of prolonged use are not scientifically known. In those countries where cannabis use has been traditional, excessive amounts are claimed to induce loss of motivation, apathy, memory difficulties and loss of mental acuity. Reports of psychotic breakdowns from the extended use of marijuana are frequently found in the medical literature of the Near and Middle East, but these require further scientific investigation.

The heavy use of marijuana can affect the personality development of the young person. By making marijuana use a career, the young person avoids normal life stresses and the problems that are an intrinsic part of growing up. He therefore misses the opportunity to mature to his full physical and mental potential. In addition, the developing personality is known to be susceptible to the effects of all mind-altering substances.

Marijuana has no known aphrodisiac property. At various times in the past, both promiscuity and impotence have been attributed to the use of marijuana without scientific basis for either allegation.

The consistent user, the 'pothead,' is likely to be emotionally disturbed, according to many studies of this group. He is using the drug to treat his personality problems.

The use of marijuana is increasing. In a recent nationwide survey, four % of those queried responded affir-

matively to the question, 'Have you ever used marijuana?' That would mean that more than eight million people have tried the drug. Twelve percent of the young people indicated that they have tried it. Exact statistics are difficult to obtain because of the legal penalties.

In college surveys, two-thirds of those who said that they had tried the drug did so less than a dozen times. Another quarter are occasional users, and the rest-less than 10 percent-may be considered daily or heavy users.

## Alcohol and Sleep Entertain Students

By Vickie Ratliff

Have you ever wondered what happens to the 400 odd summer students when the old classes are finally over? On a stroll across the campus you will probably encounter four or five characters 'holding up the wall' in front of the cafeteria. Most of the commuters head home when their classes end, but what of us who stay on the somewhat inactive campus for a long evening? Some of us indulge in daring and dashing games of frisbee, others in hair-raising bouts of ping pong and if we're lucky a prosperous game of poker. The student who seeks his recreation in the town may find such inviting signs as 'No Bare Feet Allowed' or 'No ice-cream cones served inside.'

So what to do? The major attraction seems to be the public beer joint, so who can wonder why the blood of the average GSC student is 75% alcohol? Of course there are always the books but who can concentrate on old world philosophy when the temperature is 95° and rising and the 'call of the cue stick' is ringing in the ears?

Some of our more prosperous students may sleep away the long afternoons or lose themselves in such exciting intellectual tales as Mr. Cartoon, Gilligan's Island or Uncle Willy. The trend seems to be 'early to bed,' not so much for health purposes but for lack of anything better to do.

Is it not unusual then, with all the free time the students have to study during the summer that the grades are usually not outstanding? Perhaps sleep fatigues the brain or beer dulls the senses. Whatever the cause, many students are finding themselves faced with permanent boredom, the heart-break of alcoholism, and, for some, d good study habits.

Dr. Nuzum of the Education Department has announced the number of student teachers for the upcoming Fall. There will be approximately 82 student teachers in secondary education and 37 student teachers in elementary education.

Young Junior Leaguers are shown in Thursday night action.

## Have You Heard . . .

By Mike Rust

Coach Lilly made a giant stride last week by setting up some sort of organized sporting events for the young people living in Glenville by establishing a junior basketball league. The league will be for boys in grade school and junior high school. I feel that this program was long overdue. This league will help in giving the boys something to do during the summer and I am sure it will be a big hit. Coach Lilly's son, Bill, had alot to do in getting the program started. He made several phone calls, lining up the boys who would want to play. The games will be played on Tuesday and Thursday night before the big Intramural games start.

The league could be made into a developmental program in helping our young basketball players. It will certainly be a big plus for the high school basketball coaches, for the boy playing in this league will probably become oriented into his style of play.

If this program proves to be successful look for a midgeet league football and a little league baseball program to be established.

The games will start at 6:00 p.m., and if one finds him or herself with some spare time during this period go up to the gym and watch the games. Maybe we will get to see a future college All-American in action.

### Intramural Softball . . .

Coach Carney's intramural softball league is really having a tough time of getting a game played. At first the league did not have enough teams, they had three and needed four. Now that they have enough teams the weather has been a factor. It seems that it has rained every Monday or Wednesday making it impossible for the field to dry up enough. Maybe next week?

### Grand Slam . . .

Jack Nicklaus has already arrived in Muirfield, Scotland hoping to add the British Open on his quest for the Grand Slam of Golf. He is the 9-5 favorite to win the tournament. Nicklaus has already won the U.S. Open and the Masters tournament.

### All-Star Game . . .

With the All-Star game coming up everyone I think is going with the National League except myself and Peck Dorsey. We feel that American League will come through as they did last year. Our reason for our belief in the American League, there will probably be too many Pirates on the National League squad.

### Pirates Strike Again . . .

The Pirates have done it again to their Charleston farm club. Pittsburgh called up the Charlies leading hitter and pitcher. Richie Zisk was hitting .295 with 15 homeruns and 54 runs batted in. Gene Garber was 9-2 for the Charlies and had a 1.66 earned run average. Charleston is currently atop the International League, three games ahead of Louisville. Manager Red

Davis has only seven healthy pitchers left now with the departure of Garber. **Kevin Merchant Transfers . . .**

Coach Lilly received some great news last week when it was learned that All-Conference basketball player Kevin Merchant announced that he will enroll at Glenville State for the coming semester. Kevin will have to sit out a year but is certain to help the Pioneers out the following year. Merchant was a three year regular at Morris Harvey. It is reported that he will begin play in the intramural league sometime this week.

### Major League Standings . . .

My predictions of a few weeks ago seem to be shaping up pretty good. In the American League, Oakland is moving out in front in the Western Division and Baltimore is starting to move in the East. The National League is not going exactly as I planned but I look for some changes in the next few weeks. Cincinnati is ahead in the West but watch for Los Angeles to move up. In the East the Pirates are up but watch for the Cubs and the Mets to pass them by.

### Lakers Having Tough Time . . .

The Lakers have been having a tough time of it during the early parts of the intramural season. After winning their first game they have dropped three straight by the scores of 70-67, 78-75, and 85-82. Two of these losses have come in overtime. As Tom Lilly puts it, "They have just not been getting the good breaks."

### Football Season . . .

Football season is just a month and a half away. Coach Hanlin and his staff are already busy at work planning for a successful season. The coaches have many holes to fill left by graduation but with the freshmen and sophomores maturing quickly Coach Hanlin and staff should not have too many worries. Look for a couple of the on-coming recruits to push the veterans for starting jobs especially at quarterback with the addition of former Potomac State star Ed Williams.

### Officials . . .

The referees are having a tough time of calling the intramural basketball games. Coaches Lilly, Carney, and Mr. Hardman are doing a fine job of officiating the games but with all the games so close it is rough to make the call that will please everyone knowing that it will definitely affect the outcome of the game.

### Final Score . . .

If anyone is walking the halls of the Physical Education building, be sure and stop in and listen to the singing going on in Camp Counseling class at 1:00. Jim Stotts is leading the song parade. Ed Williams and Pete Wood, two former WVU greats, are playing professional football in Canada now. After reading that story in TIME magazine about Johnny Bench it has got me wondering about "Manny Who?" Have a good week.

# Coach Jesse Lilly Expresses Optimism About 1972-73 Championship Team

With four returning starters from a championship team, basketball coach Jesse Lilly has to be optimistic about next year. Right? Yes, but at the same time he expresses sincere caution.

"We have to be optimistic, but since we're the champs, everyone will be gunning for us," he said. "Everyone wants to beat the top team."

Gone from last year's squad are centers Dale Tawney and Ken Ledbetter along with invaluable third guard Jim Spicer.

The center job shapes up as a dogfight between three potentially outstanding, but inexperienced, performers. They are 6-6 "Shaft" Datcher, 6-6 Rick Short, and 6-6 Wes Denham. All three will be freshman in eligibility although Datcher will be a sophomore academically.

The third guard position shows more experience with Gene King and Arthur Blackmon being able to spell the Singing Jim Garnett and Ron Jones. Two freshman, Harvey Chester, 6-1, and Mark Elder, 6-1, should provide even more depth in the backcourt.

The Pioneers are rich with forwards. All-conference selections Steve Datcher and Earl Hawkins return with highly capable backup men Ralph Cook, Bill Sellards, and Roger Hess.

Lilly likes having so much talent returning but insists that the toughest job lies ahead. "We'll have to work twice as hard next year. It's hard to reach the top but a lot harder to stay there."

## Coach Carney Begins Intramural Softball Play

Coach Carney has announced that intramural softball will begin Monday, July 10. All games will be played at Kanawha Field, 3 miles west of town on Route 5.

The Wright Guys, Dorsey's Dodgers, Larry's Lambs, and Reale's Raiders will compete each Monday and Wednesday for the league title.

Team I, The Wright Guys; Scotty Hamilton, Dave Wright, Bob Hardman, John Harbour, John Lilly, Larry Queen, Roger Hess, Mike Rust, Bill Lilly, Clyde Stepp, and Ted Williams.

Team II, Dorsey's Dodgers; Dennis Fitzpatrick, Roger Davisson, Andy Summers, Jim Dorsey, Wes Denham, Gene King, John Marra, George Brumfield, Tim Carney, Frank Puskas, Jerry Milliken, and Bob Summers.

Team III, Larry's Lambs; Larry Lamb, Paul Ashby, D. A. Wilson, Bill Morrow, Larry Grzyby, Joe Will, Dave Bunton, Jim Garnett, Craig Chapman, Ralph Cook, and Tom Lilly.

Team IV, Reale's Raiders; Phil Reale, Rudy King, Bill Sellards, Gary Cotton, Gary Mitchell, Rex Kuhl, Joe Putnam, Jim Stotts, Dave Hewitt, Guy Perry, and Rick Waller.

### SCHEDULE

July 10 6:00 IV vs II 7:00 III vs I	July 24 6:00 III vs IV 7:00 II vs I
July 12 6:00 II vs I 7:00 III vs IV	July 26 6:00 I vs IV 7:00 II vs III
July 17 6:00 II vs III 7:00 I vs IV	July 31 6:00 II vs IV 7:00 III vs I
July 19 6:00 I vs III 7:00 IV vs II	August 2 6:00 I vs II 7:00 IV vs III

Recruiting is a very important aspect of the game of basketball. Coach Tim Carney feels that on the college level one must recruit if he expects to win. Recruiting may be 75% of the game of basketball on the college level today.

There are several things to look for when recruiting a basketball player. A boy should have good speed and quickness if he expects to excel in the game. If a person has good speed and quickness he will be able to make up for some of the other faults he might have.

Coach Carney feels it is important to see a boy play many times during the season. It is difficult to judge a player if a coach judges the boy on the first appearance.

A coach should try to fill the positions that are vacant on his team. If the team needs big men that is what he should try to recruit. A coach may recruit only one or two players but if they can fill the vacant positions that is all that is necessary.

Almost anyone can look at the super ball player and tell whether he can play college ball. However, a coach must decide whether the average ball player can play. This is

especially true on the small college level because most of the great ball players go to a big college or university.

Coach Carney feels that the main problem GSC has in recruiting is no scholarships. It is difficult to recruit against Morris Harvey, Fairmont and the private schools who have scholarships.

Environment can be a problem because most players would rather go to a big town or big school. Some boys are very unrealistic and will go to a big school and ride the bench for four years.

Coach Carney and Coach Lilly have done a great job recruiting the past 3 years. They have put together a team with great speed and quickness, plus the desire to win, and win is certainly what they have done.

Shooting ability is something every coach looks for. A player who shoots the ball with a soft touch can be a big asset, because the main object of the game is to put the ball in the basket.

A coach also looks to see how well a boy moves without the ball and if he is a good team ball player. These are two aspects of the game that the average fan of the game does not look for during the game.

## Intramural Statistics

Scoring Leaders	G	Pts.	FG	FT	AVG. TEAMS
Datcher	4	87	40	7-17	21.75 (Pacers)
Spicer	4	81	33	14-18	20.25 (Nets)
Cook	4	79	35	11-26	19.75 (Nets)
King	4	72	27	18-24	18.00 (Colonels)
Caudill	4	68	28	14-23	17.00 (Lakers)
Sellards	4	63	27	9-15	15.75 (Colonels)
Denham	4	63	25	13-18	15.75 (Colonels)
Tawney	3	44	20	4-5	14.6 (Nets)
Ra. Hess	2	29	13	3-3	14.5 (Nets)
Ro. Hess	4	59	26	7-13	13.50 (Lakers)
Wilson	4	50	22	6-7	12.50 (Pacers)
K. Ledbetter	4	49	19	11-14	12.25 (Lakers)
R. Ledbetter	2	23	9	5-8	11.50 (Lakers)
Garnett	4	44	17	10-13	11.00 (Pacers)
D. Hardman	2	20	10	0-1	10.00 (Nets)

### Games This Week

Coach Carney moves past Jim Spicer during recent intramural game.

## Sororities, Fraternities Plan Summer Retreats

The various social fraternities and sororities at GSC are planning retreats for this summer. Some have already indulged in the delights of getting together this summer.

Alpha Sigma Alpha sorority plans to have its retreat from July 21 - 23 at Cedar Creek State Park.

Delta Zeta sorority plans to have its retreat from August 4 - 6 at Glenville.

Sigma Sigma Sigma sorority plans to have its retreat on July 21 - 23 at Alum Bridge.

Lambda Chi Alpha fraternity plans to have its summer retreat on July 28 to 30 at Summersville Lake.

Tau Kappa Epsilon fraternity's retreat is July 28 - 30 at their fraternity house in Glenville.

Theta Xi fraternity has already had their summer retreat from June 16 - 18 at their fraternity house in Glenville.

Coaches who were on campus for the recent football camps include Don Arthur, East Bank High School; Ron Rice, University of Maryland; Frank Elwood, Ohio University; and back row Glenville State College coaches, Robert Summers, Bill Hanlin, Earl Adolfson, and Jerry Milliken.

## Godfrey Does Research For Isolating Repressors

GSC has a pioneer of a new breed called 'molecular biologist.' Larry J. Godfrey has begun an in-depth research in basic molecular genetics in the air-conditioned laboratory on the second floor of the Science Building.

The DNA molecule, regarded as 'the keeper of the code of life,' contains intangible units of function, known as genes, which are in turn controlled by protein materials called repressors. Bacteria are used in this study on repressor structure and function. Larry is trying to isolate a type of these repressors. Then, he will run analyses on them as to structure and with particular attention to the lac region of the *e. coli* dna. When the structure of the repressors is known he wants to synthesize them in the laboratory. If the repressors can be isolated, identified, synthesized, then perhaps they can be manipulated. The value of this power to manipulate gene expression would be vital in understanding hereditary diseases and other cell functions.

The primary purpose of this research is to give the scientist tools and skills

for further research. He is using basic bio-chemical techniques with 'clean' conditions on bacterial cultures. Later, he plans to switch from bacteria to virus. Techniques must be refined in order to study the bacteriophage, which is a sub-microscopic agent that destroys bacteria. The use of viruses in the project will probably be started this fall.

Larry hopes to continue his research at Cornell University. Their teaching staff includes several Nobel Prize winners. At the present time, he and his wife, Charlotte, live at Murphy's Trailer Park.

According to Life Magazine, (Oct. 4, 1963), this new frontier of research is being explored by scientists who began as mathematicians, Physicists, and chemists who have turned their attention, their ingenious techniques and their precision instruments to the study of living organisms. Dr. Marshall Nirenburg, of the National Institute of Health, took the first great step in understanding the genetic code. He provided the biological Rosetta Stone, the crucial key to translating the hieroglyphics of Life's code.

### Dalton's

Headquarters for  
Lady Wrangler,  
Bobbie Brooks,  
Jane Colby,  
MacGregor,  
Hubbard slacks,  
Curlee clothes.

### Hamric's Jewelry

Glenville, W. Va.

### Howes

#### Department Store

Shoes and clothes for  
the entire family.

"A business built on quality."

### SUMMERS PHARMACY

PRESCRIPTION DRUGGIST

Hours 8 - 8 p.m.

### GLENVILLE TEXACO & MOTOR SALES

Post Office Box 266  
GLENVILLE, WEST VIRGINIA 26351  
Telephone 462-8051

### Ben Franklin Store

GOOD QUALITY  
MERCHANDISE

Glenville, West Virginia

### Guyan Factory Outlet

Welcomes all College  
Students

Shoes, Socks, Ties, Hose,  
Belts, Lingerie & Purses.

You might call us a "shopping center" bank.

You can get any bank service you need from us. Which is why we—as a full-service bank—are a kind of shopping center bank.

Here, you can get checking and savings accounts; personal, business and automobile loans; and even safe deposit boxes.

Come on in today. No point in waiting for a sale. That's the only way we don't resemble a shopping center!

### Kanawha Union Bank

Glenville, West Virginia — Member F.D.I.C.

# GOD HELP BOBBY AND HELEN

They're in love in Needle Park

## the panic in needle park
