President Addresses Assembly

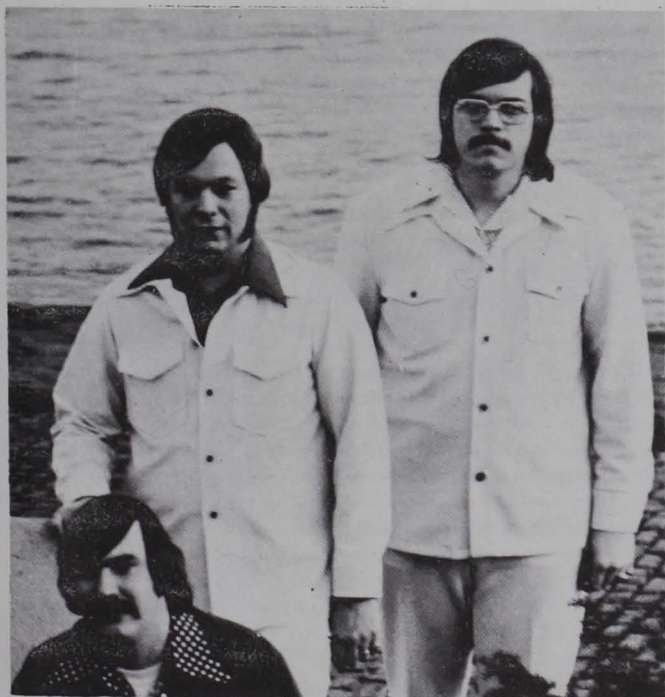

Dr. D. Banks Wilburn, president of Glenville State College, will address parents of incoming freshmen this afternoon at a meeting to be held at 1:30 p.m. in the Ballroom of the Student Center. Following are some highlights from Wilburn's address:

"Education is something that each person must acquire for himself. It cannot be purchased, borrowed, or conferred. It cannot be imposed on a student. He cannot acquire it by some mysterious process resulting by merely living on a college campus for four years in contact with professors, classrooms and books."

"Glenville State College will offer to your sons and daughters the opportunity to achieve an education; but each student must through individual effort acquire that combination of knowledge and maturity of thought, wisdom, tolerance, curiosity, and ambition, which distinguishes the truly educated."

In speaking of the next few weeks ahead, President Wilburn remarks, "Experience has taught us that the early months of college are a time of crisis for parents and students alike. Until now, most of you have been closely associated with the education of your sons and daughters. You have provided much of their instruction in

Registration Set

Registration is a hassle. Everyone agrees on that. We are going to do everything we can to make it as painless as possible and I believe that if everyone will follow the procedure outlines below, things will flow smoothly.

This year the key to registration will be your advisor. Everyone, whether they have pre-registered or not, must see his advisor first. There will be no drop-adds until Thursday, August 26.

If you have pre-registered, you may see your advisor on either August 24 or August 25. Your advisor will assist you in updating your profile sheet, and he will give you the new registration forms. Then, you may pay your fees. If you want to make a change, you must wait until the day classes begin, Thursday, August 26. You do not need to go through the Ballroom.

If you did not pre-register, you should see your advisor on Tuesday, August 24. Your advisor will assist you with your schedule cards and also your profile sheet. You will then be ready to go to the Ballroom on Wednesday, August 25 for the remainder of the registration process. Remember. See your advisor first.

DR. D. BANKS WILBURN, PRESIDENT

Freshmen Greeted

It is with much enthusiasm and high expectations of your future that I greet you as the class of 1980. You undoubtedly, are beginning what possibly will be the most rewarding four years of your lives. I hope that most of what happens to you will have a most positive effect on what you will become and what you will believe in terms of values which will guide you in relating yourselves to others.

Glenville State College must quickly become, in every sense, truly your Alma Mater. If this is to be, it must necessarily include the arriving at a degree of maturity which is exhibited in a sincere personal loyalty to yourselves, to your fellow students, to those who cause you to want to be creative, imaginative, and objective in all areas of daily living. Only when you measure what you do in terms of values which make actions positive, and only when you measure loyalty to yourselves as being identical with your loyalty to others will Glenville State College have the meaning that it should have as your Alma Mater.

With best wishes,
D. Banks Wilburn, President

Successful Year Is Anticipated

It is with great pleasure that I welcome each and every one of you back to the campus of Glenville State College. I would especially like to extend warmest greetings to the incoming freshmen who chose to further their educational and personal goals at Glenville State. I believe that all of you will find your college years at Glenville very worthwhile if you only take advantage of the opportunities that the college has to offer. We are looking forward to a very rewarding and successful academic year and we hope that you are, too.

Tim B. Butcher
Student Body President

In my lifelong quest to prove and reprove that sacred cows make prime hamburger, I present to the unsuspecting students of GSC my brainchild: a never-ending attack on sacred ideas, people and institutions. Quite often, I make a revered national figure appear ridiculous because that is my appointed mission in life. Do not be overly offended if your own sacred cows are slaughtered, because, like a sex joke in England, a political pun in America is rarely understood.

The Parthenon, gazette of Marshall University, nestled in the peaceful plains of Huntington, reports that the university's steam room is now "co-educational." Elaboration on what they learn there was not provided.

I have spent my summer learning the valuable skill of appearing to be a college upperclassman not, heaven forbid, a freshman.

The purposes of not being a freshman are apparent. First, being a freshman is in bad taste, and of course, shows one to be a terrible klutz. Freshmen are easy to spot; it is hard to be discreet while adjusting to one's new environment. The male freshman always wears a tie on registration day, a sure sign of inexperience with institutions of higher learning. The female freshman will all too often wear a dress, an item of apparel unknown to GSC. The freshman, in an attempt to be chic, will often be a heavy smoker of wacky-tobacco, while the knowing upperclassman will burn more exotic things in his bowl: litchi nuts, Elmer's glue, mosquito antennae.

Politics of normal citizens of the Republic range from Democrat, Republican, Socialist, Communist and Richard Nixon. All college students, regardless of their registry, also belong to the Apathy party.

To Us, You're Real 'People!'

As editor of your campus paper here at Glenville State College, I would like to take an opportunity to extend a hearty welcome to the incoming Freshman Class, as well as the returning "veterans" to our campus.

As you will find, the campus of Glenville State College is quite unique in that it "extends itself" past its physical boundaries through the proponents of the college. People are the proponents of this campus. Here at Glenville you will discover people who are genuinely interested in you as an individual as well as in your educational aspirations. In the wake of today's systemized dehumanization of the individual, I honestly believe that GSC's concern for the individual student is one of the reasons why Glenville is the home of one of West Virginia's finest institutions.

The implementing of education is, of course, the immediate goal of college. However, education is composed of more than merely books, classrooms, and instructors. The social development of the student is as much a factor in one's success or failure as is classroom participation. Glenville State College is more than sufficient in social areas. Whether one's interests lie in chess, billiards, or practically any area, you will find the GSC campus offers productive outlets for your excess energies.

College life is an aggregation of many and varied forces. The end product of this college life will hopefully result in the forging of a college graduate who is capable of grasping a situation and, by using his or her training, arriving at a suitable result.

This learning experience on which you are about to embark will deliver you to a level of success which is highly dependent on your personal labors. You are now constructing the foundation for the remainder of your life. Even though many helping hands will be extended to you during your college career, the brunt of the effort must be provided by you.

With this in mind, I sincerely wish you the best in the continuance of your education.

Football Team Faces Season

As Coach Whitey Adofson begins his second year as head football coach at Glenville State College, the 1954 W.V. Tech. graduate is optimistic about the upcoming season. He says, "We feel we should be better in some positions, because of the experience last year. There are a lot of positions where we lost players, and we will have to develop replacements from our present squad and our in-coming new players. We are hoping to be better than last year. Our spring practice was helpful to a degree, but cold weather hampered our progress in our second week. We feel our new facility will be a positive factor for us".

Two opening "away" games will be played in Virginia before "Whitey" meets his old Alma Mater here on Sept. 18. The ten-game schedule will be highlighted by the Homecoming game with Bluefield State on Oct. 16. Last year, the Pioneers won that game 17-7.

Concerning offense, defense and kicking, the five-man coaching crew (Adofson, Robert Summers, Jerry Milliken, Gene Davis, and James Riffle) have decided to return the offense to the basic T formation. The defense, which has traditionally been a strong area, will return to a variation of the Penn State 4-4. This year's squad will depend on leadership from some 21 returning lettermen.

The upcoming season hopes to prove to be somewhat more fruitful than the 2-6-1 record sported by Coach Adofson's 1975 gridders. The addition of the new sports facility coupled with the "new season enthusiasm" should provide impetus for a successful 1976 grid season.

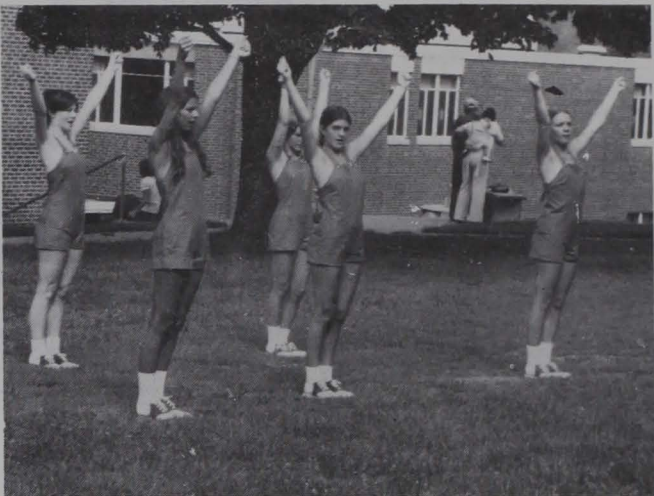

Dr. Tedford Chosen To Head Speakers

Dr. Barbara W. Tedford, associate professor of English at Glenville State College, has been charged with providing "traveling humanists" to groups around the state interested in their presentations.

Most of the speakers are college professors who give presentations on subjects like folk music, heritage arts and crafts and various historical subjects. The program is sponsored by the Committee for Humanities and Public Policy in West Virginia.

Mr. Eaton holds an A.B., B.S. and M.B.A. degrees from the University of Missouri and will fill the vacancy of Roger Clites.

Mr. Rogers, GSC graduate and former faculty member, holds an M.A. degree from WVU. He will replace Mr. Frank Puskas.

Cheerleader camp was held on campus again this summer. Above are some of the enthusiastic campers shown during their practice sessions.

You have known your children's teachers and the members of the school board; you have participated in PTA activities and school events; you have had the chief responsibility for discipline, supervision of study, and control of non-academic activities outside of school. And now, you are turning your sons and daughters over to Glenville State College. It is understandable if you have some misgivings and apprehensions."

Selected first-year students receive by the way of certain courses designated Foundation Studies assistance in improving language skills reading and writing, and/or basic information in mathematics, and/or the sciences.

Students who have demonstrated that they have acquired those certain knowledges and skills which are presented in first-year college-level courses will be assigned appropriate credit in one or more courses, thus providing such students registration for advanced courses at the outset of their college careers. Recognizing achievement to the degree expected on completing a college-level course and assigning college credit is appropriately designated as Advanced Placement.

Parents will be given information concerning the size, location, service and regulations of the College, the manner of treatment of their sons and daughters, qualifications of the instructional staff and pertinent information about Glenville State College. They will also be given the opportunity to speak individually with present staff members concerning student welfare and College policy.

Dr. Wilburn pledges the cooperation of all of his staff personnel with these words:

"As parents of our entering freshmen class, you are naturally favorably inclined toward higher education. You are hopeful of its value and are convinced that it is well worth the sacrifice many are making to send your sons and daughters to Glenville State..."

"Finally, on the part of Glenville State College, I pledge to you that all who serve here will do their best to encourage your sons and daughters to become better men and women by reason of having studied here and by having associated with us. We appreciate your confidence in this college in giving us, for a time, your most precious possessions - your sons and daughters. We accept this trust with sincere responsibility."
