We have now entered the good 'ole traditional "turkey and ham' month. As we look forward to Thanksgiving with all its splendor, we can't help wondering if we would still be excited if we knew what we were actually eating during the "big meal." There are those fortunate enough to raise their own pigs, turkeys,

and chickens. These people can feel "fairly" safe about eating their animals because they know what they are feeding them. But there are those among us who have to buy our animals in the grocery stores. Many have no idea what is actually being put into these animal's blood streams which, in turn, will enter into our own. Here are some of those things:

Today's bird never sees sunlight or never has a chance to breathe fresh air due to being placed in a 12" by 12" cage along with four other birds in large windowless, temperature controlled sheds. Computers program their days by selecting feed and sending it along block-long troughs on conveyor belts. During a specific time of the day, powerful sprays of water shoot through the pens to wash aexcrement which causes much anxiety among the birds.

You have heard the old cliche "going to bed with the chickens." Well, this certainly doesn't apply to the chickens in modern chicken farms. Bright flourescent lamps are left on 16 hours at a time to encourage feeding. The bird will probably never come in contact with a human being until the day it is eaten.

On a modern American poultry farm, one person can take care of 30,000 birds at one time simply by confining the birds and doca toring their feed with a variety of drugs and hormones. When we eat these birds, these drugs and hormones come into our bodies. This chemical treatment also speeds up growth, which is depicted by the flat, tasteless flesh. Therefore, chemists have invented artificial dyes that are added to feed to transform the pasty-whiteness of chicken flesh into a rich golden color. This color, in no way, matches the rosy yellow found in good 'ole country-raised poultry

Over 90 per cent of chickens from flocks in both America and abroad are inflicted with a viral cancer called leukosis. Since the U.S.D.A. relaxed it's ruling on condemned birds in 1970, the markets simply cut off the tumors and sell the rest of the chickens to us. According to the October 1977 issue of New Woman: "To count-

teract the unsanitary conditions that exist on some assembly lines, poultry farmers dip the bird in a final bath of yet another antibiotic, S nd soak it in near-freezing water that leeches out what is left of the flavor.

Most European countries forbid the importation of American chickens on not only esthetic but also health grounds. They prefer e to allow their poutry to mingle freely in the sunlight, the way nature intended.

In most modern piggeries, the animals are crowded together so a tightly they can barely move. If they move around they use energy which burns body fat. Hog raisers love fat pigs, so in order to make them fatter faster, they put hormones, antibiotics, and copper sulfate, a cumulative poison, into the pig's food. Tranquilizers are R used to calm the pigs so they won't use energy. And more antibiotics are used to prevent the spread of infectious diseases

After this short-lived crowded invironment, eating of processed garbage, the pig is then subjected to one more insult before the ultinate slaughter. Sodium pentobarbital, a powerful anesthetic, is injected into its bloodstream to relax it's muscles, so that the flesh

will be redder, and more tender. Isn't this great! With all this junk going into our bodies, perhaps we should think twice before asking the blessing on this "good food."

A Senior Recital will be held Sunday in the auditorium. Featured will be Doug Bailey on Tuba and Bruce Wendelken on Trumpet. Admission for students is free with ID.

Dr. Christopher Orr, recently elected Presidne to the West Virginia Association of College English Teachers.

Orr Is Elected President

Dr. Christopher Orr was elected president of the West Virginia Association of College English Teachers for 1979 on Saturday, October 28 at the bi-annual meeting held at Jackson's Mill. Dr. Orr served as vicepresident of WVACET for the year of 1978. He has written several literary papers, three of which were publishby and for WVACET members, and one which was read at the spring 1977 meeting of the West Virginia Association of College English Teach-

Dr. Orr received his A.B. degree in English at the University of Michigan in 1965, he went on to earn his M.A. degree, also at the University of Michigan in 1967. The newly elected president earned his Ph.D in English at Penn State University in 1972. Previous teaching experiences include Mansfield State College, Mansfield, Pennsylvania and Penn State University. Dr. Orr is presently Associate Professor of English at Glenville State College and this is his sixth year with us.

Additional Permits Available

With winter coming on some commutes may find it necessary to drive the second family car when a battery goes dead or, the fourwheel drive when snow and ice arrives. How do you identify the new vehicle on campus?

Stop by the Student Affairs Office and obtain a temporary permit at no charge. The permit is a small square piece of paper with a gummed

side and bears the regular registration number of your original vehicle. Simply list a small portion at top and bottom of the front side of the sticker and affix it to the upper left hand corner of the inside windshield.

These permits may be validated for one week at a time and may be obtained on the day needed or on Friday preceeding the week you will be driving a second vehicle.

Organizations Highlighted

Lambda Chi Alpha Fraternity started on the Glenville campus as Omega Kappa Phi in 1968. All the members of Omega Kappa Phi were given the rights and inducted into Lambda Chi Alpha. Dr. A. T. Billips helped in the founding and was the groups first advisor. He had been affiliated with Lambda Chi Alpha at the University of Tennessee and thought this would be a worthwhile organization to have on campus.

Advisors after Dr. Billips were Jim Meads and current advisor C. Vance Weekly.

There are presently 30 members in Lambda Chi Alpha which includes seven associate, first semester men. Glenville's chapter was the first in this international organization to do away with the pledge system. They felt it was time to treat new members as equals.

This fraternity performs many activities for the campus and Glenville. They have social functions to help the underprivileged and handicapped. Plans this year call for Halloween Parties for underprivileged kids and some of the patients from Weston State Hospital. Also they plan a Christmas Party for the kids in Tanner and other areas, com-

plete with "Santa." According to Dale Sparks a Lambda Chi member, "all of the hard work pays off when you see the faces of the kids at this party."

The Lambda Chi's also help out whenever there is a blood drive. Along with the Delta Zeta's they clean the windows of the merchants in downtown Glenville.

The members of Lambda Chi Alpha come from many different backgrounds. Also it can be said that there are people in this organization from all majors at GSC.

Many of the things that this fraternity does are not seen. Five members of this organization belong

to the Student Congress, the governing body of GSC.

If you wish to join this organization there are two fees you must pay as an associate member. The first, associate member fee is \$25. and secondly a \$65 initation fee is paid. Both of these fees go to the national headquarters. Once you become a brother you pay \$15 a month local dues and \$10 a semester for National dues.

The Chi's along with their auxillary Ladies of the White Rose plan to do more for GSC and Glenville.

Photography and art students visited Falling Waters, PA to view Frank Lloyd Wright's house, above.

Exam To Be Given

The English Proficiency Examination will be given in Room 305AB, Monday, December 4, at 6:30 p.m. Students who have completed 58 semester hours, or will have completed this number by the end of the semester, and who have not achieved an over-all average of 2.0 (C) or better in English 101 and 102, should come to the Language Division Office and sign to take the test. Anyone who was enrolled at GSC prior to the fall semester 1977 must include English 202 in this average. Students who are enrolled in certain two-year programs and pre-professional programs do not have to meet requirements that include this test. If a student makes a "D" or "F" in English 101 or 102, then,

rather than take the examination, he may repeat the course(s) one time only to achieve a "C" average or better. "The Language Proficiency Policy"

is explained in the current Glenville State College Catalogue, pp. 32-33. It is the student's responsibility to determine whether or not he needs this test.

Will Appear Henry L. Baker will deliver a lecture Thursday, November 9, on the effects of mass media on language and thought in comtemporary

Henry Baker

society. Mr. Baker holds a B. A. degree in English from Virginia Military Institute, the M. A. in English from Clarion State, and will receive the Ph.D. in Communications from Ohio University in December. He has been employed as a newscaster and radio announcer in Streator, Illinois, taught in the public school systems of Virginia and Pennsylvania, and is presently Assistant Professor of

Communications at the University of Wisconsin, Stevens Point. The lecture is scheduled for 2:00p.m. in the ballroom of Pioneer Center.

All interested persons are invited to

Mr. Cutlip's schedule includes campus visitations on Nov. 1 and 29; December 6 and 20.

Students in Recital

Doug Bailey and Bruce Wendelken will present a senior recital Sunday, November 5 at 8:00 p.m. in the Auditorium. This is required for completion of a degree in music.

Doug plays tuba. He will present three pieces, two contemporary and one Romantic. He will be accompanied on piano by Dr. Edward Graham, piano and theory teacher, and by Twyla Wallace, a Music Education major.

Bruce Wendelken plays trumpet. He will present three pieces, two contemporary and one baroque. He will be accompanied on piano by Dr. Graham and Twyla Wallace.

Doug is a 1975 graduate of Richwood High School. He plans to graduate from GSC in the fall of 1979 with a degree in Music Comprehension, K-12.

Bruce is Vice President of the Music Educators National Conference (MENC).

Doug is an active member of the MENC, is a member of the Christian Fellowship Musicians and is the GSC Pioneer.

The recital will be free for all students with ID. Dress will be formal.

J. MAPES TO APPEAR

James T. Mapes, one of the hottest ESP/Hypnosis acts at the college scene, will appear at the college auditorium on Thursday evening, December 7, 1978 at 8:00 p.m.

Student Congress will place tickets on sale for \$1.00 per person at the College Bookstore beginning Monday, November 6.

Tickets will also be on sale at the door.

IN THE BALLROOM

Due to the Drama Dept. need "Fun with Dick and Jane," and "The Emigrants" will be shown in the Ballroom instead of the Auditorium. Nov. 8 - "Fun with Dick and Jane."

Doug Bailey on tuba and Bruce Wendelken on trumpet will present their senior recital Sunday, Nov. 5 at 8 p.m.

Regional Pick-up Noted

CHARLESTON--Regional pickups for entries to the West Virginia Juried Exhibition are set for November 9 - 11 in 14 locations around the state

"We are encouraging all West Virginia artists to enter the competition," stressed Lyn Wyatt, Director of the Exhibition for the Department of Culture and History.

"A total of \$33,000 will be aawarded to the artists, marking what we believe is the largest sum ever to be, made available in a juried exhibition under state sponsorship." The Exhibition will open March 17 at The Cultural Center and continue through May 13.

Eligibility requirements, as outlined in the prospectus, specify that entrants be resident West Virginians who have completed an Artists Register form and submitted six slides of

work by November 9. The prosepctus and Artists Register forms are available by contacting Wyatt at the Cultural Center, State Capital Complex, Charleston, WV 25305 Phone: 348-0240

"If the November 9 deadline cannot be met, we ask that the artist deliver his Artist Register form at the time he submits his work to the pickup point," said Wyatt. He added that additional forms will be available at each pick-up point and can be filled out at that time.

Wyatt added that artists planning to submit entries with any measurement over 10 feet or weight in excess 600 pounds should contact him at The Cultural Center before delivering work to the pick-up point in order that special arrangements may be made.

attend.

Dear Mountain Mama

I was at the homecoming dance this weekend with my boyfriend, My roommate was also there with her date. Since her date doesn't dance, I asked my boyfriend to dance with her. Well, they stayed on the dance floor twenty minutes and when they came back she sat beside him and they started talking, That ruined my evening. My boyfriend and I had a fight over this and my roommate and I had a fight. Now I'm not speaking to either of them. What should I do?

SP

Dear S.P., Grow in and apologize. After all, it was you who asked your boy-

friend to cance with your roommate. Don't base your relationship on jealousy! M.M.

Dear Mountain Mama.

I am a sophomore taking 17 hours. I just don't think my teachers understand the pressure I am under. I can't possibly get all my work done. Why does every teacher think that his course is the only one I'm taking? Over-worked

Dear O. W.

Teachers are humans too. You can't possibly expect that they could

spend their lives doing something and not think it was important. On the other hand, maybe you're doing too much. Try to stick to doing only the basic assignment. Don't try to overdo it. Even teachers take a break now and then.

M.M.

Dear Mountain Mama,

My problem is my roommate. We came from the same town and went to the same church and church camp all of our lives. Since we've been at school, he has stopped going to church and sometimes comes in late at night. I think he's even drinking but he won't say so, lle needs help. What should I do?

Mark

Dear Mark,

to her, care of The Mercury.

Each of us has our own road to follow, and sometimes they go different places. Although you've traveled the same path with a friend, that does not mean you can stay on it forever. Be thankful that you had the opportunity to travel life's road together for as long as you did.

Mountain Mama cares! If you have a problem, send your questions

Pioneers Drop Close Game To Fairmont 21-22

For the second consecutive week the clock has worked against Glenville State. The time evaporated too quickly against W. Va. Wesleyan but would not click off soon enough for the Pioneers last Saturday against Fairmont.

The Falcons pulled off a last minute 21-20 triumph in the Pioneer Stadium.

Dave Boggess had an outstanding

evening for the blue and white. He returned a kick off 96 yards for one score and add another six points on a fourteen yard scamper up the middle. Boggess picked up 89 yards rushing and had two pass receptions for another ten stripes on the evening.

Mike McGill hauled in a Falcon punt and went 84 yards for the final Glenville score. McGill's punt return was one yard shy of a school

record held by Doc Stanley against Concord in 1956.

The WVIAC's leading passer, Terry Spangler, suffered through a dismal evening against the Falcons. He completed only eight of 27 passes for 81 yards. Spangler now has 1,129 total yards passing over the first seven games.

Ed Donatell had a big evening for . the Pioneer prevent unit coming up

FORESTERS COMPETE

Sunday . October 29, some GSC Forestry students traveled to Cooper's Rock State Forest to compete in a forestry field day with West Virginia University. This was the first time that Glenville had competed in such an event.

The competition was centered around old fime logging practices. Eight events tested the skills of the foresters. Brian Satterfield placed 1st in the ax throw, Dave Keener won the vertical speed chop, Dianne Hanlin and Stan Hall were first in the Jack and Jill cross cut competitions.

Richard Ray placed 1st in pole felling. Tammy Roberts won dot split, and Dave Keener won bolt split.

Glenville failed to place in the log roll and the Jack and Jack cross cutting.

The residence halls will be closed

for Thanksgiving vacation on Friday, Nov. 17, 1978 at 5:00 p.m. and will reopen on Sunday, Nov. 26 at 12:00 noon.

The lunch on Friday, Nov. 17 will be the last meal served. Dinner will be the first meal served on Sun. Nov. 26, 1978.

with eight tackles and a fumble recovery. Chuck Ludewig, Tim Carter, Dennis Gilchrist, and Kent King all had six tackles a piece.

King and Chuck Barker each snagged errant Falcon Passes. It was the first interceptions of the season for both.

Glenville State goes back on the road this weekend (Sat. Nov. 4) with a 1:30 contest against Concord.

PLAYER PROFILES GIVEN

Last week, due to a lack of space and time, a picture was run of the basketball team was run without a story. But, I'm not one to let my fans down I have come up with some information on the roundballers. Bill Lilly was mostly responsible for the information and I thank him. Some of the players will be run this week and some next week. So by the time the baskethall season starts on Nov. 17th everyone should know a little about the team.

Charles "Stretch" Warner, Senior Forward; Hgt. 6-4 wgt. 179 Age 20 Upperville, Va. Warner moved into a starting job early in his freshman season and has been there ever since. He is an excellent defensive player and usually draws the toughest assignment on that end of the floor. Warner is also a fine shooter with a 15 to 18 foot range.' Last season he proved this by finishing third in the WVIAC foul shooting percentage race hitting on 54 of 66 attempts

"Stretch" was a WVIAC Honorable Mention selection in 1978. He is a three year letterman.

for 81.8%

Wayne Washington, Senior-Guard Hgt. 6-1 wgt. 173 Age 21; Brandywine, Md. Washington, like Warner moved into the starting line up during his freshman season. He is a good jumper, excellent shooter, and is catquick. Wayne has the potential to be one of the best guards in the conference.

The scouting report on Washington should say don't leave him open. He was a 56% shooter for the 1977-78 season. He has lettered all three seasons as a Pioneer.

Gary Nottingham, Senior-Guard Hgt. 6-0 wgt. 170 Age 22; Gassaway, W. Va. Nottingham has been in and out of the starting line up each of his three seasons as a Pioneer. He became a permanent starter early last season with an outstanding performance in the win over Morris Harvey.

Basketball is not his only game. He was an All-State in both football and basketball at Braxton County High School and a member of the All Conference baseball team his sophomore year at GSC. Nottingham is a three year letterman at Glenville.

Joe Kniceley, Senior-Forward Hgt. 6-5 wgt. 218 Age 21; Nitro, W. Va. Kniceley has never returned to the form he showed during his sophomore year. During that season he was a starter and one of the major reasons the Pioneers finished the regular season in second place. They wound up third that year in the WVIAC Tournament defeating Fairmont in the consolation game. Kniceley has lettered his last two seasons
