Keenan Praises "Witches"

Witches in this day and age? Surely not! Well, I didn't think so either until I saw "The Unwicked Witch" in the GSC auditorium and changed my mind. The director, cast and crews of GSC Theatre's last production of the school year attempted to bring to life the last three witches left on Earth and succeeded very well.

First of all, I feel all the crews should be strongly commended on all their hard work which helped to make the show the success it was. The set, costume, props, lighting, and sound were excellent. The set was one of the most complete I have ever seen at GSC and its bizarre, "aged" purple coloring (EVERYTHING was purple!) definitely added to the general atmosphere of the show. Brilliant, eye-catching costumes, special sound and lighting effects, and believable props further added to the tone of the show. The crew for house management should also be praised for its work with the children attending the shows.

The cast of the show includes Tammi Igo as Winona, the Unwicked Witch; Mark Norman as Lucky Luke; Kent Woofter as Wobble, the great-great-grandmother witch; Gary Ross as Gobble, the grandmother witch; and Mark Kozlowski as Sad Simon, Lucky Luke's grandfather.

The part of Winona is everyone's preconceived childhood notion of sweetness and innocence and the Clay County sophomore played Winona to her most wholesome. Ms. Igo gave the children in the audience a heroine to cheer for, which was one of the main points of the entire show.

Just as Winona became the children's heroine, Norman, as Lucky Luke, became the hero of the piece. Norman portrayed Luke with the typical chivalry expected as he pushed his way into Winona's life and cheekily saved the day.

If a "star" of the show had to be chosen, I would say the Kent Woofter's Wobble emerged as the victor. Woofter's portrayal of the evil elder witch gave the children many chills and at the end of the show, he was able to handle the transition from evil to good smoothly. He attempted to get the children involved in the show and did so with seemingly little effort.

Ms. Davidson and Ross, as Hobble and Gobble, teamed up to cause many laughs among the audience. Both have their own distinct styles and the children loved them.

Kozlowski portrayed an old man searching for his lost tune. While he was not as exuberant upon finding his lost tune at the end of the show as one might expect, he did a fine job as the broken-hearted grandfather.

Special laurels go to the director, Linda McKown, and stage manager, Jupe Morton, for all their dedication and hard work.

Overall, it is my opinion that the show achieved the purpose its contributors set out to achieve. The show was greatly enjoyed as GSC student, faculty, and staff. Congratulations to everyone involved as GSC Theatre 1981-82 ends with as great a success as it began.

Orr Receives Grant to Make Film

A grant has been awarded to Dr. Christopher Orr for the production of a narrative film depicting nineteenth century Appalachian Culture.

"A Fragment of Stained Glass" written about a serf of medieval England by D.H. Lawrence is the material that filmmaker Chris Orr decided to base his film on. The setting is changed to West Virginia in the 1900's. Also, the script for the 30-minute docu-drama was funded for \$11,489 by the Humanities Foundation of West Virginia.

The main story concerns a young hired hand who, after a dispute with a landowner, burns down the landowner's stables and barn. Depending upon one's interpretation,

Orr said, the hired hand either burns to death or escapes, taking a young woman with him.

The main story is introduced and concluded with scenes of an old man telling a ghost story about the hired hand to a young child some 50 years later.

Of particular interest to Orr is the way the ghost story was used as a method of social control in early West Virginia history.

There will be history consultant throughout the project helping to maintain the air of authenticity. Those involved are: Ruel Foster, Professor of English at WVU, James Gay Jones, W. Va. scholar and author of regional folklore, Frederick Armstrong of W. Va.

Department of Culture and History, and William Wood, Professor of Anthropology at Ohio University.

The first part of the docu-drama will be shot on location at Glenville.

Chris Orr will be looking for actors to portray the parts needed. Fran Davis is to be the female lead.

"When films about a region are made by its residents, there is less opportunity for negative stereotyping and that results in a greater and more genuine understanding of the culture," Orr said.

The film is scheduled to be completed in September, 1982. It will be shown to the West Virginia public.

Four young ladies have been nominated for the annual "Miss Kanawhachen" contest. The voting is currently being held in the lobby of the Pioneer Center and each vote is a penny. The winner will be announced at a later date.
